1 TO THE HONORABLE COURT AND ALL PARTIES HEREIN:

2 Phelan Piñon Hills Community Services District (“PPHCSD”) hereby respectfully submits
3 the following response to the [Proposed] Case Management Order For Phases 5 and 6 Trials filed
4 by Los Angeles County Waterworks District No. 40 on September 27, 2013 (“Proposed CMO”):

5 The Proposed CMO is substantially consistent with the Court’s comments and direction as
6 provided to the parties during hearings held on September 6 and 13, and the Proposed CMO reveals
7 that the Liaison Committee has aptly worked to provide structure to the upcoming trial phases.
8 However, to better support the needed structure for these trial phases and to enhance the parties’
9 ability to properly prepare for trial, two items arise from the Proposed CMO that PPHCSD requests
10 the Court incorporate into what is likely to become the Case Management Order for Phases 5 and 6
11 Trials (“CMO”), as follows:

12 (1) Whether claims to return flows resulting from use of *native* water are for
13 determination in Phase 5 or Phase 6. By way of the Court’s First Amended Discovery Order For
14 Phase 4 Trial (posted February 21, 2013), the Court recognized this issue is for determination
15 “during later proceedings.” On September 13, 2013, PPHCSD inquired as to which trial phase this
16 issue will be tried, with counsel for Diamond Farming Company indicating it also has such as
17 claim. The Court indicated this claim should be part of Phase 5. The Proposed CMO, under
18 “Alternative 1” and “Alternative 2” for Phases 5 and 6, does not address this issue, except perhaps
19 by implication for Phase 6 Alternative 1 suggesting that the “Phase 6 trial will determine claims to
20 a prescriptive right *and all remaining claims to groundwater.*” (Proposed CMO, p. 2: 14-15
21 [emphasis added].) Accordingly, PPHCSD respectfully requests the Court reflect in the CMO
22 which Phase this issue of return flows resulting from use of native water will be tried.

23 (2) Phase 6 Alternative 2 would limit trial to “prescriptive rights and defenses thereto.”
24 (Proposed CMO, p. 2:16-17.) Neither Phase 5 Alternatives 1 and 2, nor Phase 6 Alternative 2,
25 address when non-prescriptive rights will be tried. Only Phase 6 Alternative 1 broadens the scope
26 for determining “claims to a prescriptive right *and all remaining claims to groundwater.*”
27 (Proposed CMO, p. 2:14-15 [emphasis added].) So unless the Court adopts Phase 6 Alternative 1,
28 it is unclear whether the Court recognizes that non-prescriptive claims exist, and, when such claims

1 may be offered to the Court for determination. Accordingly, if the Court does *not* adopt Phase 6
2 Alternative 1 which presumably includes non-prescriptive claims, then PPHCSD respectfully
3 requests the Court reflect in the CMO that the Court recognizes that non-prescriptive claims exist
4 (even if by a public water supplier) and that such claims are for determination in proceedings
5 following Phase 6.

6 Incorporating the two items set forth above into the CMO will help provide the structure
7 necessary for effective case management, as well as enhance the ability of the parties - including
8 PPHCSD - to properly prepare for trial.
