Re: STATUS OF RECORD ON APPEAL

Dear Counsel:

We have received a few calls from attorney(s) about the status of the Record on Appeal. Initially, we were working with the Willis Class to create a comprehensive Record on Appeal. As we were working through the process it became clear that the time and costs involved were extraordinary and the Willis Class decided that, instead, it will prepare a typical Appellant's Appendix containing the documents the appellants intend to rely on. The respondents will then have an opportunity to submit any additional documents they deem necessary in a Respondent's Appendix. After several discussions with Victoria Fuller, appellate counsel for the Willis Class, we have decided that the best expenditure of our client's funds would be to allow her and her consultant to finish the Record on Appeal. If you have any questions, please direct them to Ms. Fuller, whose contact information is below.
