**GENERAL INFORMATION**

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles, and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Notice of Groundwater Extraction and Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) if annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 341-5300.

**TABLE 1: AGRICULTURAL WATER USE WORKSHEET (Optional)**

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) to applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

CROP	COLUMN 1	COLUMN 2	COLUMN 3
	ACRES	AVERAGE APPLIED WATER DEPTH (acre-feet per acre)	AMOUNT PUMPED (acre-feet) (column 1 X column 2)

**CONVERSION FACTORS**  
 One acre-foot (af) = 43,560 cubic feet = 325,900 gallons  
 One miner's inch is approximately 9 gallons per minute.  
 An acre-foot covers one acre of land, 1 foot deep

**TOTAL IRRIGATION USE**

**TABLE II: AVERAGE DEPTH OF WATER APPLIED TO IRRIGATE EACH CROP (acre-feet per acre)\***

- Close this file. (Files may be reopened at any time – fee required.)
- Record my water use. (Fee required)
- Do not record my water use but keep my name on mailing list. (No fee required)

Transfer this file to: \_\_\_\_\_  
(NEW OWNER'S FIRST NAME) (M. NAME) (LAST NAME)

Company Name: \_\_\_\_\_

Address: \_\_\_\_\_  
(MAILING ADDRESS) (CITY) (STATE) (ZIP CODE)

Telephone: ( ) \_\_\_\_\_ Effective Date: \_\_\_\_\_

## 8. SUPPLEMENTAL INFORMATION. Please list any changes in your project since last year (new pump, new land irrigation, new method of irrigation, etc.) or any other comments.

## 9. CERTIFICATION AND SIGNATURE: I certify that the forgoing statements are true and correct, to the best of my knowledge.

Signature: Yvonne Valasek Today's Date June 13, 2001

Printed Name Yvonne L. Valasek  
(FIRST NAME) (M. NAME) (LAST NAME)

Company Name: Palm Ranch Irrigation District

THIS SPACE FOR OFFICE USE ONLY R. 2952 AMT: 5.00

**GENERAL INFORMATION**

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Notice of Groundwater Extraction and Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) if you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) if Annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 341-5300

**TABLE 1: AGRICULTURAL WATER USE WORKSHEET (Optional)**

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) times applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

CROP	COLUMN 1	COLUMN 2	COLUMN 3
	ACRES	AVERAGE APPLIED WATER DEPTH (acre-feet per acre)	AMOUNT PUMPED (acre-feet) (column 1 X column 2)

**CONVERSION FACTORS**  
 One acre-foot (a. f.) = 43,560 cubic feet - 325,900 gallons  
 One miner's inch is approximately 9 gallons per minute.  
 An acre-foot covers one acre of land, 1 foot deep

**TOTAL IRRIGATION USE**

**TABLE II: AVERAGE DEPTH OF WATER APPLIED TO IRRIGATE EACH CROP (acre-feet per acre)\***
