AGENCY WATER USERS:

Enclosed are the 7-Year Requested Water Delivery forms which we ask that you complete and return before August 1, 1980. Also enclosed is Resolution No. R-80-5 of the Board of Directors setting the charges for water delivery in the year 1981. We also request those water users in agriculture to complete the other enclosed form providing data on your crops and acreage using our water.

Please keep in mind that the amount of water you request for delivery in 1981 on this schedule will determine the Water Availability Charge you must have on deposit with the Agency by August 15, 1980. We will only schedule water delivery from the State for the quantity of water on which the Water Availability Charge has been advanced. Your current deposits are applicable to the 1981 water delivery requests.

You will note the estimated rates for water delivered in 1983 are substantially increased. We will appreciate your careful analysis of the impact of these rates on your future operations and, therefore, the scheduling of your water deliveries for 1983 and subsequent years accordingly. Your assistance in this regard will enable us to better plan and budget our future operations and facility improvements.

Thank you for your earliest attention to completion and return of your 7-Year Requested Water Delivery Schedule.

Very truly yours,

Wallach. Spinashi

Wallace G. Spinarski General Manager
