State of California
Secretary of State

I, BRUCE McPHERSON, Secretary of State of the State of California, hereby certify:

That the attached transcript of 7 page(s) was prepared by and in this office from the record on file, of which it purports to be a copy, and that it is full, true and correct.

IN WITNESS WHEREOF, I execute this certificate and affix the Great Seal of the State of California this day of

DEC 01 2006

A handwritten signature in cursive script, appearing to read "Bruce McPherson".

BRUCE McPHERSON
Secretary of State

June 1, 1951

Honorable Randal F. Dickey
Member of the Assembly
State Capitol
Sacramento, California

Dear Assemblyman:

This is to advise you that
Governor Warren signed Assembly Bill
1512 and it was filed with the Secretary
of State on June 1st.

Sincerely,

Beach Vasey
Legislative Secretary

LEGISLATIVE MEMORANDUM
GOVERNOR'S OFFICE

ASSEMBLY BILL NO. 1512

Date: May 29, 1951

To: GOVERNOR WARREN

From: A. Edward Nichols and Beach Vasey.

1. **SUBJECT MATTER:** Adds Section 7076.1 to the Water Code to provide that reports made pursuant to Section 7076 shall not be made available for inspection by the public but shall be made available to governmental agencies for use in making studies. Section 7076 was added in 1949 in the chapter relating to water wells and provides that every person who hereafter digs, bores or drills a water well, or deepens or re-perforates any such well, shall file a report with the appropriate regional water pollution control board within thirty days after the work has been completed. This report shall be on forms furnished by the Division of Water Resources and shall contain such information as the description of the exact location of the well, detailed log, description of type of construction and methods used for sealing off surface or contaminated waters.
2. **AUTHOR:** Dickey and others.
3. **VOTE :** Assembly - Unanimous.
Senate - 30 Ayes, 1 No (Donnelly).
4. **LEGAL REPORTS:**
 - (a) Legislative Counsel: Form, title and constitutionality approved.
 - (b) Attorney General: No legal objections. He states that it is properly within the prerogative of the Legislature to prevent random inspection by the public of such reports since the reports are required for use only by regional water pollution control boards.
5. **SPONSORSHIP:** None indicated.
6. **DEPARTMENTAL REPORTS:**
 - (a) In Support: Dr. Halverson, Director of Public Health, recommends approval, stating that this information available to governmental agencies such as the Department of Public Health would be of assistance not only to the State department but to the local health departments.
Mr. Durkee, Deputy Director of the Department of Public Works,

AB 1512 cont.

states that the information required to be filed under Section 7076 is regarded by some well drillers as part of their stock in trade and such drillers are reluctant to submit such information if it is made available to the general public. It is believed that if the information is not open to public inspection more complete and accurate information will be received. He recommends approval of the bill.

The State Water Pollution Board recommends approval of this measure.

(b) In Opposition: None.

7. OTHER REPORTS: None.

8. COMMENTS: Approval is recommended. I agree with the comments made by Mr. Lurkee and also that there is justification for the requirement that this information should be made available to governmental agencies but not to the public at random.

AEN/eaw

APPROVED:

BU

OFFICE OF THE DIRECTOR

STATE OF CALIFORNIA
Department of Public Health

668 PHELAN BUILDING
SAN FRANCISCO 2, CALIFORNIA

May 22, 1951

Honorable Earl Warren
Governor of California
State Capitol
Sacramento, California

Attention: Mr. Beach Vasey, Legislative Secretary

Dear Governor Warren:

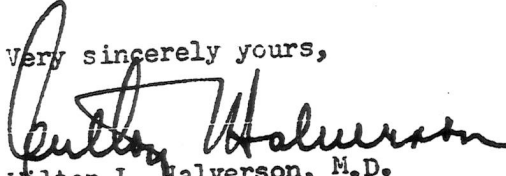

Assembly Bill 1512

Assembly Bill 1513 contains a provision that persons hereafter constructing or repairing water wells shall file certain pertinent information with the regional water pollution control board. In the lack of a generalized water well statute, this procedure would for the first time make information concerning water wells a matter of public record.

Assembly Bill 1512 provides that such information, while not available to the general public, shall be available to such governmental agencies as departments of public health. This would be of assistance to both the State Department of Public Health and the local health departments.

It is recommended that this bill be approved.

Very sincerely yours,

Wilton L. Halverson, M.D.
Director of Public Health

STATE OF CALIFORNIA
Inter-Departmental Communication

To: Honorable Earl Warren
Governor of California
Capitol Building
Sacramento 14, California

Place: Sacramento
File No.
Date: May 22, 1951

From: Department of Justice
Office of The Attorney General
Walter S. Rountree, Deputy Attorney General

Subject: Assembly Bill No. 1512

This bill will add to the Water Code Section 7076.1 relating to water wells (Statutes of 1949, Chapter 1552, Section 4) by providing that reports filed with regional water pollution control boards by persons who dig wells shall not be made available for inspection by the public but shall be made available to governmental agencies for use in making studies.

It is properly within the prerogative of the Legislature to prevent random inspection by the public of such reports since the reports are required for use by regional water pollution control boards only.

No constitutional objection.

Title satisfactory.

Walter S. Rountree

SACRAMENTO 7

Inter-Departmental Communication

To: Honorable Earl Warren
Governor of California
Sacramento, California

File No.
Date: May 21, 1951

Subject: A.B. 1512

From: Director of Public Works

Reference is made to your memorandum of May 17, 1951, requesting a recommendation on Assembly Bill 1512.

The bill would add Section 7076.1 to the Water Code to provide that reports on well completion made pursuant to Section 7076 shall not be made available for public inspection, but shall be available to governmental agencies for use in making studies.

The information required to be filed under Section 7076 of the Water Code is regarded by some well drillers as part of their stock in trade, and such drillers are reluctant to submit such information if it is made available to the general public. It is believed that if such information is not open to public inspection, more complete and accurate information will be received. ✓

I recommend that Assembly Bill 1512 be approved.

C. H. PURCELL
Director of Public Works
