DECLARATION

I, Jared Scott, declare:

1. I am Chief, Industrial Facilities Branch, Acquisition Environmental and Industrial Facilities Division, Agile Combat Support Directorate, Air Force Life Cycle Management Center, Wright Patterson Air Force Base (WPAFB), Ohio. I am the industrial facility engineering and real property technical authority for all Air Force owned Industrial Plants, including Air Force Plant 42 (AFP 42). The United States is a party to this action. In lieu of deposition testimony for the Phase 4 trial, I am providing this declaration. I have personal knowledge of each fact herein, or have obtained these facts from staff working under my direction or the business records of AFP 42 and would testify competently thereto under oath.

Property Ownership and Parcel Size

2. The United States owns property known as AFP 42 that overlies the Antelope Valley Area of Adjudication as decided by this Court. The land is in Los Angeles County within the adjudication area, and is identified by the following APNs: See Exhibit A. A true and correct copy of Exhibit A is attached hereto and incorporated herein.

3. With respect to AFP 42, the United States claims groundwater rights only as to the properties listed in Paragraph 2 and Exhibit A.

4. AFP 42 is 5,349.32 acres in size. Total acreage by APN is provided in Exhibit A.

5. For each APN identified above, the United States of America owned the property during the following time period: At least January 1, 2000 to the present.

6. The following are all individuals/entities appearing on the title for the above identified APNs from Jan 1, 2000 to the present: United States of America

7. For each individual/entity identified in paragraph 6, that individual/entity appeared on the title during the following time: At least January 1, 2000 to the present.

Water Meter Records

8. AFP 42 is divided into eight operating sites, numbered Site 1 through Site 8. Six of the sites are leased to aerospace contractors. These are Site 1 (The Boeing Company), Sites 2, 7, 8

1 (Lockheed Martin Corporation), Sites 3 and 4 (Northrop Grumman Corporation). The U.S. Air
2 Force operates Sites 5 and 6, which are the common areas. Groundwater production is measured
3 on Sites 1-4 and 7-8 by water meters operated and maintained by the contractor lease operator for
4 each site. Fire protection wells on Sites 5 and 6 are not metered. Bates-numbered documents
5 XXXX through XXXX in the U.S. Document Production contains true and correct copies of the
6 records for the water meters on Sites 1-4 and 7-8 for the following years: 2000-2004, 2011-2012.

7
8 9. Exhibit B sets forth the total yearly production amounts by APN for metered water wells
9 on the above referenced properties for the years 2000-2004, 2011-2012. A true and correct copy
10 of Exhibit B is attached hereto and incorporated herein.

11 10. In addition to the amounts shown on Exhibit B, the United States claims an amount for
12 groundwater produced by the fire protection wells on Sites 5 and 6. This amount will be
13 established by an engineering estimate and is not part of this declaration.

14 **State Water Project Purchases**

15 11. The United States purchases State Water Project water, directly and through its
16 contractors, from the Palmdale Water District, a State Water Contractor, for use by the United
17 States on the properties referenced above. Bates-numbered documents XXXX to XXXX in the
18 U.S. Document Production contains true and correct copies of the invoices for delivery of water
19 from the Palmdale Water District to the properties referenced above for the following years:
20 October 2001-2004, 2011-2012.

21 12. Exhibit C sets forth the total yearly deliveries of water from the Palmdale Water District
22 to the properties referenced above for the years 2002-2004, 2011- 2012. Palmdale Water District
23 Invoice data is only available back to Oct 2001. Dates of service on the Palmdale Water District
24 invoices reflect the date of meter readings and therefore do not coincide with precise calendar
25 months; e.g., July 2011 usage covers the period 16 Jun 2011 to 18 Jul 2011.

26 A true and correct copy of Exhibit C is attached hereto and incorporated herein.

27 13. In addition to the amounts shown on Exhibit C, the United States claims an amount for
28 deliveries of water from the Palmdale Water District to the properties referenced above for the

1 years 2000 and 2001. This amount will be established by an estimate and is not part of this
2 declaration.

3 **Use of Water**

4 14. The United States used 323.00 acre feet of groundwater on the above identified APNs in
5 2000, plus groundwater from the fire protection wells. Palmdale Water District provided service
6 in 2000; however, usage data is not available. The water was used for the following Military
7 purposes in connection with AFP 42: Water at AFP 42 was used for domestic, industrial,
8 construction and fire protection purposes to support the military mission of providing industrial
9 base capacity and common area infrastructure to develop, manufacture, sustain and flight-test
10 aerospace systems. Examples include supplying water to industrial production facilities, aircraft
11 production, aircraft sustainment, fire protection systems, office buildings, drinking water,
12 irrigation of landscaping and Heating Ventilation & Climate Control (HVAC) systems.

13 15. The United States used 358.97 acre feet of groundwater on the above identified APNs in
14 2001, plus groundwater from the fire protection wells. Palmdale Water District provided service
15 in 2001; however, usage data is not available for January through September 2001. The water
16 was used for the following: See response to paragraph 14 above.

17 16. The United States used 375.17 acre feet of water (groundwater and Palmdale Water
18 District water) on the above identified APNs in 2002, plus groundwater from the fire protection
19 wells. The water was used for the following: See response to paragraph 14 above.

20 17. The United States used 360.66 acre feet of water (groundwater and Palmdale Water
21 District water) on the above identified APNs in 2003, plus groundwater from the fire protection
22 wells. The water was used for the following: See response to paragraph 14 above.

23 18. The United States used 383.27 acre feet of water (groundwater and Palmdale Water
24 District water) on the above identified APNs in 2004, plus groundwater from the fire protection
25 wells. The water was used for the following: See response to paragraph 14 above.

LAW OFFICES OF
BEST BEST & KRIEGER LLP
3750 UNIVERSITY AVENUE, SUITE 400
P.O. BOX 1028
RIVERSIDE, CALIFORNIA 92502

1 19. The United States used 393.94 acre feet of water (groundwater and Palmdale Water
2 District water) on the above identified APNs in 2011, plus groundwater from the fire protection
3 wells. The water was used for the following: See response to paragraph 14 above.

4 20. The United States used 382.06 acre feet of water (groundwater and Palmdale Water
5 District water) on the above identified APNs in 2012. The water was used for the following: See
6 response to paragraph 14 above.

7 21. Other than what is declared herein above (actual usage or declared data gaps for Palmdale
8 Water District and un-metered fire protection well usage), the United States did not produce or
9 use water within the Antelope Valley Area of Adjudication for AFP 42 for 2000-2004, 2011-
10 2012.

11 I declare under penalty of perjury under the laws of the State of California that the
12 foregoing is true and correct. Executed this 31st day of January 2013, at Wright-Patterson AFB,
13 Ohio.
