Hi Cameron,

Circling back on this – now that Watermaster has approved the transfers, can we represent to the Court that Watermaster stipulates to an *ex parte* order granting Rabbitbrush Solar and US Solar Assets leave to intervene in the case?

Thanks,

Chris

Hi Chris,

Thanks for taking the time to discuss briefly this morning. We have no basis to oppose the transferees' proposed intervention at this time, and I believe the Watermaster Engineer will be submitting a memo concluding that there is no MI at this time (but that intervention should be required as a condition of approval). However, we will need to wait until the Board considers the transfer application at the December 2 meeting before we can stipulate to the intervention. Per our call, it sounds like it is still feasible for you to file your papers on or after the Board meeting date in time for your December 8 "hearing" date.

Let me know if you have any additional questions or concerns in this regard.

Best,
Cameron
