RE: Notice of Determined Acreage on Farm No. 689

Dear Mr. Lane:

This letter is to notify you of the results of a spot check that the Farm Service Agency (FSA) conducted on farm number 689. The spot check revealed that the determined acreage of fruits and vegetables (FAV) is greater than the reported acreage by 136.2 acres. Planting of FAV (In this case, carrots) on non-contract acreage is not a violation of the Production Flexibility Contract (PFC). The PFC payment is unaffected.

Should you believe the determined acreage is incorrect, you may request a remeasurement of the acreage by contacting this office within 15 calendar days from the date of this notice and depositing a fee for remeasurement. The fee will be refunded to you if the original measurement is found to be in error by at least the larger of 3 percent or 0.5 acre.

If you have any questions regarding this matter, please don't hesitate to contact our office

Sincerely,

Douglas D. Brand
County Executive Director

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status.
