

EXHIBIT T

CORRELATION OF MAP UNITS. A table with columns for 'UNITS' and 'SYMBOLS'. It lists geological units such as 'CHALK/CRAI', 'LUTHERAN', 'CALLEJON', 'JANUARY', 'PERMIAN AND TRIASSIC', 'CRETACEOUS', and 'AGE UNKNOWN'. Each unit is associated with a specific color and symbol used on the map.

EXPLANATION OF MAP UNITS. A detailed text block explaining the geological units shown on the map. It describes the units in terms of their geological age, lithology, and structural characteristics. The text is organized into sections corresponding to the units listed in the correlation table.
