CVD000065.

[illegible]

Figure 1 is a line graph showing the number of cases of COVID-19 in the United States from March 2020 to March 2021. The x-axis represents time in months, and the y-axis represents the number of cases. The graph shows a sharp increase in cases starting in March 2020, peaking in May 2020, and then declining. A second, smaller peak is visible in March 2021.
