Assigned to: Honorable Jack Komar

DECLARATION OF PATRICIA
PARKER IN SUPPORT OF
RESEDALE MUTUAL WATER
COMPANY'S REQUEST TO BE
INCLUDED IN STIPULATED
SETTLEMENT AGREEMENT

23
24 I, Patricia Parker, declare:

25 1. I have personal knowledge of the facts set forth in this declaration, unless
26 otherwise stated, and I could and would competently testify thereto in court under oath if
27 called upon to do so.
28

1 2. I am currently the Secretary-Treasurer of the Reesedale Mutual Water Company
2 and I have held that position for the past 8 years. I have lived in a house served by
3 Reesedale since 1996. As Secretary-Treasurer, I am the custodian of records for
4 Reesedale. I am responsible for maintaining the records for water usage for Reesedale
5 and I pay all of Reesedale's bills, including property tax bills.

6 3. Reesedale was incorporated in 1955 according to the records of Reesedale. To the
7 best of my knowledge and belief Reesedale has continuously pumped water since that
8 time from a well located on property owned by Reesedale. Reesedale has two wells (one
9 of which is a backup well) and one permanent storage tank. The property on which the
10 wells are located are unimproved with the exception of the wells. The wells are located
11 on a parcel owned by Reesedale, identified by the Los Angeles County Assessor as APN
12 892085134804000. I have ordered a copy of the deed from the assessor's office as I
13 cannot locate a copy in Reesedale's records.

14 4. Reesedale's service area includes 59 parcels of land (not including the parcel with
15 the wells) of which 23 are developed. The developed parcels are residential only and four
16 of those parcels have two dwelling structures on them; the others have single homes only.
17 None of the parcels are used for commercial purposes and never have been to the best of
18 my knowledge. My parcel is zoned for residential use only and I believe that to be the
19 case for the other parcels as well.

20 5. No water is being provided to the undeveloped parcels and to the best of my
21 knowledge those parcels have never been provided with water since Reesedale's
22 incorporation. No parcel included within Reesedale's coverage has a well of its own
23 other than the one parcel owned by Reesedale as described above. None of the parcels
24 within Reesedale have any source of water other than that provided by Reesedale's wells.

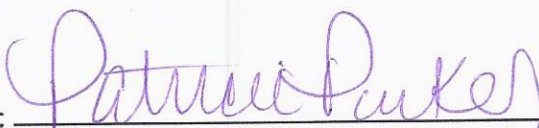

25 6. The 23 "active" residential parcels have water meters which measure the amount
26 of water delivered to each parcel. Reesedale's well does not have a master meter. In the
27 past, by decision of the Board of Directors of Reesedale, each of the parcels with a single
28 residence have been allocated 30,000 gallons of water per month; 45,000 gallons per

1 month has been allocated to the parcels with two residential structures on them. Usage in
2 excess of those amounts is surcharged.

3 7. The meters for the various properties are read monthly by two of the Reesedale
4 property owners, Donna Hopkins (the Vice-President of the Board of Directors) and, until
5 one month ago, Ernie Coleal. I transpose their monthly figures into a ledger I maintain as
6 part of the corporate records. The individual water use records go back to at least 1989
7 and are available. I have compiled the annual usage figure for the years 1989 through
8 2014 from Reesedale's records and that compliation is attached hereto..

9
10 I declare the foregoing to be true and correct under penalty of perjury under the
11 laws of the State of California. This declaration was executed in Los Angeles County,
12 CA.

13
14 Dated:

By: 
Patricia Parker, Secretary-Treasurer of Reesedale
Mutual Water Company
