ANTELOPE VALLEY GROUNDWATER  
CASES

\*ASSIGNED TO JUDGE JACK KOMAR

## NATURE OF PROCEEDINGS:

along with the hearing re the proposed order after the hearing of June 30, 2016, re Election of Watermaster, are called.

The motions for supplemental fees and costs, and to strike or tax costs, are argued and stand submitted.

With respect to the proposed order submitted by the Antelope Valley United Mutuals Group, Adams Bennett Investments, LLC, and Service Rock Products, LP, regarding Watermaster Formation, attorney Stanley C. Powell, of the firm Kronick, Moskovitz, Tiedemann & Girard, representing cross-defendants City of Los Angeles and Los Angeles World Airports, and on behalf of other "Overliers," is now asked to prepare, serve and submit modifications to the proposed order.

Note that after the June 30 hearing the Antelope Valley United Mutuals Group, along with Adams Bennett Investments and Service Rock Products, filed objections and challenges to the "Rules and Procedures of Election of Initial Landowner Party Watermaster Representatives."

After meeting and conferring regarding concerns expressed by the Overlier parties to certain provisions in the initial draft, a revised proposed order was prepared that addressed some, but not all, of those concerns.

ANTELOPE VALLEY GROUNDWATER  
CASES

\*ASSIGNED TO JUDGE JACK KOMAR

## NATURE OF PROCEEDINGS:

The Outlier parties have offered a number of modifications to the Findings and Determinations portion of the proposed order, and those modifications are to be incorporated into the revised order.

The next hearing in this action is scheduled for September 6, and will address the Watermaster Formation/adoption of rules and procedures for the election of a Permanent Board.

However, the court now notes that September 6 is the day after the Labor Day holiday, and suggests that the hearing be moved to September 8.

There are no objections, and the hearing regarding the Watermaster Formation, etc., is advanced from 9-6-16 to this date and continued to 9-8-16, 10 a.m., in Room 222 (formerly Department 1) of this court.

It is noted that settlements have been reached in this matter between several parties. These include resolution of the Willis and Wood class actions.

The court now urges counsel and the parties to consider mediation to try to resolve the balance of this case.

## NATURE OF PROCEEDINGS:

Irrigation District and Palm Ranch Irrigation District, and for defendants North Edwards Water District, Desert Lake Community Services District, Llano Del Rio Water Company, Llano Mutual Water Company, Big Rock Mutual Water Company, and the Quartz Hill Water District, indicates that this court is in the best position to help resolve this action, given his familiarity with the case and its multi-layered complexities.

The court says he would consider acting as the mediator if the appropriate waivers were obtained.

The court also discusses the need to correct the judgment in this case to include the original caption and case number of the Wood class action, adding that the corrected judgment will have to be recorded in every jurisdiction involved in this matter.

Finally, multiple appeals have been filed regarding various orders made in this case. Those appeals continue to wind their way through the appellate court(s). None are expected to significantly alter the judgments entered in this case.
