LASC Case No. BC 325201  
Judicial Council Coordination  
Proceeding No. 4408  
[Assigned to The Honorable Jack Komar, Judge  
Santa Clara County Superior Court]  
Santa Clara Court Case No. 1-05-CV-049053  
**Watermaster Status Report and Request for  
Extension of Time to File Annual Report**  
[No hearing scheduled]

20  
21 Palmdale Water District is filing this status report on behalf of the Watermaster (which does not  
22 yet have its own attorneys), by authorization of the Watermaster board.

23 The judgment requires the Watermaster Engineer to file an annual report with the Court. The  
24 first annual report is due April 1, 2017. For the reasons set forth below, the Watermaster requests a four-  
25 month extension, until August 1, 2017.

26  
27  
28

1 **I. Watermaster activities**

2 **1. Watermaster composition<sup>1</sup>**

3 The court approved the board members of the Watermaster on an interim basis on June 30, 2016,  
4 and on a permanent basis on September 8. The board held its first formal board meeting August 17,  
5 although there were informational meetings earlier. Since then, the board has met eleven times in eight  
6 months.

7 The landowners are in the process of electing their alternate representatives under the election  
8 rules and procedures approved by the court December 7, 2016. The City of Palmdale is acting as  
9 Inspector of Elections.

10 **2. Formation of Advisory Committee<sup>2</sup>**

11 The Watermaster facilitated the formation of the Advisory Committee by the Producers. The  
12 committee is formed and functioning, and has given input into various Watermaster decisions, including  
13 the selection of the Watermaster Engineer. The Subarea Advisory Management Committees<sup>3</sup> have not  
14 yet been formed.

15 **3. Watermaster Engineer selection<sup>4</sup>**

16 The Watermaster decided to use a recruiting firm to assist in selecting the Watermaster Engineer.  
17 The Watermaster interviewed several qualified candidates, and agreed on a preferred candidate for a  
18 second interview. On March 28, the Watermaster board voted unanimously to negotiate a contract with  
19 Todd Groundwater. After the contract is negotiated and signed, it will be presented to the court for  
20 approval.

21 **4. Rules and regulations<sup>5</sup>**

22 The Judgment states that the Watermaster Engineer is to prepare the rules and regulations.  
23 Accordingly, the Watermaster deferred action on rules and regulations until the Watermaster Engineer is  
24 on board.

**5. Administrative functions<sup>6</sup>**

Administrative functions of the Watermaster are shared, on an interim basis, between AVEK and Palmdale Water District. The Watermaster is reimbursing actual costs. This will be reevaluated after the Watermaster Engineer is on board.

**6. Notice list<sup>7</sup>**

The Watermaster has contracted with Glotrans to maintain the notice list for both the Watermaster activities and trial court proceedings. The Watermaster has a page on the AVEK web site ([www.avek.org](http://www.avek.org)), to which it posts notices and agendas. This will be replaced by a dedicated web site, maintained by Glotrans ([www.avwatermaster.org](http://www.avwatermaster.org)), which will also contain all the court filings.

**7. Administrative budget<sup>8</sup>**

The Watermaster has approved an administrative budget for 2016, which resulted in an administrative assessment of \$1.00 per acre-foot. The Watermaster deferred a 2017 budget until the cost of the Watermaster Engineer is known.

**8. Investment of funds<sup>9</sup>**

AVEK and Palmdale Water District advanced start-up funds on behalf of the Watermaster. The Watermaster has now established a bank account to receive assessments and pay expenses.

**9. Meetings<sup>10</sup>**

The board has held all its meetings in compliance with the Ralph M. Brown Act. The Watermaster has conducted its affairs transparently, including holding interviews and deliberations to select the Watermaster Engineer in open session. All Watermaster decisions have been taken by unanimous vote of the board.<sup>11</sup>

**10. Assessments<sup>12</sup>**

The Watermaster sent invoices for the 2016 administrative assessment to all Producers except the small pumper class. The assessment was levied on each acre-foot of production right, but not on the

1 parties' right to produce imported return flows or their production in excess of production rights, which  
2 is unknown.<sup>13</sup> Payment was due January 31, 2017. To date, the Watermaster has received payment for  
3 95% of the invoiced administrative assessments.

4 **11. Production reports<sup>14</sup>**

5 The Watermaster sent requests for 2016 production information to all Producers except the small  
6 pumper class, on a form approved by the Watermaster. Responses were due March 15, 2017.

7 **12. Intervention after judgment<sup>15</sup>**

8 The Watermaster approved a stipulation for intervention with First Solar, which had bought  
9 certain properties and their associated water rights. The Court subsequently approved the intervention.

10 **II. Request for extension of time**

11 The Judgment requires the Watermaster Engineer to file an annual report with the court not later  
12 than April 1 of each year, beginning April 1 following the first full year after entry of judgment.<sup>16</sup> Thus,  
13 the annual report is due April 1, 2017. Prior to filing the annual report, the Watermaster Engineer must  
14 make a draft available for review and hold a public hearing on the report.<sup>17</sup>

15 The Watermaster requests a four-month extension of time—until August 1, 2017—to file the  
16 initial annual report, because the Watermaster Engineer is not yet on board. This should allow sufficient  
17 time for the Watermaster Engineer to prepare a draft, make it available for review, and hold a public  
18 hearing.
