Proceeding No. 4408

Lead Case No.: BC 325201

**ANTELOPE VALLEY GROUNDWATER  
CASES**

**[proposed] FIRST AMENDMENT TO  
CASE MANAGEMENT ORDER FOR  
PHASE FOUR TRIAL**

1 IT IS HEREBY ORDERED:

2 The Case Management Order For Phase 4 Trial (the "CMO"), dated December 12,  
3 2012, is hereby amended as set forth below.

4 1. Paragraph 2 of the CMO is amended to read as follows:

5 The Phase 4 trial will address the issue of the current groundwater  
6 production (or alternative nontributary waters in lieu thereof) of all parties, proof  
7 of claimed reasonable and beneficial use of the water for each parcel to be  
8 adjudicated, and the claimed return flows from imported water, for the calendar  
9 year 2011 and January 1 through November 30, 2012. Parties that wish to  
10 produce evidence during the years of 2000 through 2012 may do so if they timely  
11 produce such evidence in discovery. Trial of the parties' claimed reasonable and  
12 beneficial uses of water will include the amount of water used by each party and  
13 the identification of the beneficial use to which that amount was applied, but will  
14 not include any determination as to the reasonableness of that type of use, of the  
15 manner in which the party applied water to that use, or any determination of a  
16 water right. The trial will also address federal reserved rights. Claims of
