               ### INSTRUCTIONS FOR FIRST NOTICE GROUND WATER EXTRACTIONS

A separate notice for each well should be typewritten or legibly written in ink. Where supplemental sheets are used, please make reference to the item number involved.

#### Item No.

- 1. The person in whose name the notice is to be recorded should be stated here.
- 3. Names of persons not included in Items 1 and/or 2 who are known to be using the well or claim an interest in water extracted therefrom should be listed in this item or on a supplemental sheet. It is not necessary to include names of persons supplied if the extractor is a mutual water company, public utility or public agency.

### **WELL LOCATION**

- 4. The owners designation by number and/or name must be given in this item in order to properly identify the well referred to in the notice. If this is the only well it will suffice to insert "only well" in this item.
- 6. Description of the well location should be sufficiently clear to enable a stranger to find the well on the ground or to locate it on a map of the area. Where reference to United States public land surveys are not available, description must be made pursuant to Item 6b. A complete street address of the well will suffice if description is not feasible by the other methods mentioned. Post office or rural route numbers are not acceptable.

#### WATER USE

- 7. If the water is used on an area within one mile of the well a statement to that effect will suffice, otherwise a description or sketch of the general area of use must be given. It is preferred that the United States public land survey system of Township, Range, Section, and portion thereof be used to describe the area of use. If a sketch is drawn in lieu of such description it should outline the area served with the distances clearly shown to roads or other prominant landmarks which may be easily located. A mutual water company, public utility or public agency may attach a map outlining the general service area. In this regard, submission of one copy of a map delineating the service area for several wells will be sufficient.
- 8. The total amount of water extracted must be reported in this item. Any clearly defined unit of measurement such as acre-feet, cubic feet, or gallons will be acceptable. The unit of measurement used must be noted in the space provided if other than acre-feet. If the amount of water extracted was estimated rather than being measured by a meter, weir, volumetric, or any other direct measuring device the method by which the quantity was estimated should be specified, such as depth of applied water and acreage served, power records lift and pump test, or other.

The Use of water extracted should be indicated by giving total acreage of each crop served. If more than one kind of crop is served by water from the well, list separately the number of acres and crop. If Use is for purposes other than irrigation the extent of the use should be indicated. For example, the water may be used for domestic purposes for 20 purposes and 6 residences, and stockwatering for 200 head of cattle. (If more space is needed the information may be entered on another sheet of paper and attached to this notice.

# GENERAL

## 9 through 21

Information supplied under these items will tend to support the claim of right to use of ground water, and will assist in reducing the cost of verification of the data contained in the notice in the case where such verification is requested under Water Code Section 5007.

22. A sketch should be drawn clearly showing the location of the well described in Item 6. If the location is described in Item 6(a), according to the United States public land survey, it should be shown in the correct 40-acre subdivision of the representative section grid provided. If the well location is described in Item 6(b), a sketch should be drawn in the space provided, showing the location of the well, with distances and directions to roads and/or other local landmarks clearly indicated.

Each notice must be signed, dated and submitted with the required \$5.00 filing fee to the Division of Water Rights.
