CLASS ACTION

Santa Clara Case No. 1-05-CV-049053

**[AMENDED] DECLARATION OF
CHARLES TAPIA IN SUPPORT OF
WATER USAGE**

21 I, CHARLES TAPIA, declare as follows:

22 1. I am an adult over the age of sixty-five years old and a resident of Newhall,
23 California, County of Los Angeles.

24 2. I am the owner of agricultural property that grows, at this time, corn and pumpkin
25 crops, located at 8301 Avenue A, Rosamond, Kern County ("Property"). The mailing address is
26 8425 W. Avenue A, Rosamond, Kern County. My property is irrigated by water that is in a water
27 rights dispute, commonly known as the Antelope Valley Groundwater Cases ("Case").
28

1 3. I am also the Trustee of the Nellie Tapia Family Trust ("Trust").

2 4. The Trust is also the owner of the Property, and as the Trustee of the Trust, I
3 submit this declaration on the Trust's behalf.

4 5. The Property consists of a total of 137.36 acres, and all of it is used for agricultural
5 purposes, specifically, over the years, corn and/or pumpkin crop growing. A true and correct copy
6 of a Property's tax bill to show the recorded acreage is attached hereto as Exhibit "A."

7 6. To grow my crops during the time periods of the year 2000 until the year 2008, I
8 used water made available to me through Antelope Valley East Kern (AVEK) Water District,
9 through pipelines from said source to the Property. During this time, I was not using my well. A
10 true and correct copy of my water usage with AVEK is attached hereto as Exhibit "B".

11 7. To grow my crops from 2008 to the present, I use water from my well, Serial No.
12 111206, with a Pump Reference No. 25314.

13 8. The amount of water I use for the crops on the Property has been quantified by
14 using a Southern California Edison well test and usage figures, comprised from the Property's
15 Southern California Edison bills from 2011 and 2012. This quantification was submitted in a
16 report from Russ Johnson on or around February 20, 2013, which based its results from a well test
17 done by Rick Koch on February 12, 2013. A true and correct copy of Southern California's report
18 is attached hereto as Exhibit "C."

19 9. The well tester, Rick Koch, AKA Frederick Koch, has already testified in the
20 Antelope Valley Groundwater Litigation during Phase 4 of trial, on May 28, 2013, in regards to
21 the validity of his tests.

22 10. According to Mr. Koch's well test of the Property, based on water pumped at 45
23 psi (pounds per square inch), the Property pumps 581 kilowatts per acre foot.

24 11. This 581 kilowatts per acre foot figure, divided into the amount of kilowatts billed
25 to the property per year (kWh / 581) is how I can annually calculate my water usage in acre feet
26 produced.

27 12. The Property's Southern California Edison Billing History, which details the
28 Property's kilowatt usage month by month is attached hereto as Exhibit "D."

13. Based on the kilowatt usage of Exhibit C, plugged into the formula recited in Paragraph 10, *infra*, substantiated by Mr. Koch's well test, I have estimated the water usage on the Property for the years 2011 and 2012 (the years Mr. Koch used for his test) as follows:

a. 2011 – 300,609 kWh used / 581 kWh per acre foot = 517.4 acre feet of water.

b. 2012 – 320,521 kWh used / 581 kWh per acre foot = 551.6 acre feet of water.

14. These results are representative of the current level of crops the Property is producing, and what I expect it can produce in the future, with an average of 534.5 acre feet of water a year.

15. I believe that my property will continue to use roughly 534.5 acre feet of water a year, with a max usage of 551.6 acre feet of water a year, based on my crop estimations and normal yearly precipitations averages. In times of drought, such as in 2013 and 2014, the usage would be higher.

16. Based on these calculations, my Property should be entitled to a minimum annual supply of 534.5 acre feet a year from the Antelope Valley Groundwater Basin, stemming from my overlying water rights attributable to the Property's location over the groundwater basin central to this Case.

17. With a confirmation from this Court of the annual entitlement of 534.5 acre feet a year, I intend to continue my irrigated farming on the Property.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration was executed on May 20, 2015 at Newhall, California.
