CLASS ACTION

Santa Clara Case No. 1-05-CV-049053

**REQUEST OF MARK RITTER,  
SUCCESSOR TRUSTEE OF THE RITTER  
FAMILY TRUST AND CO-TRUSTEE OF  
THE MARK S. RITTER AND DANA E.  
RITTER REVOCABLE TRUST TO  
ALLOW PRESENTATION OF EVIDENCE  
AS TO WATER USAGE IN PHASE VI  
TRIAL**

21 COMES NOW Mark Ritter, Successor Trustee of the Ritter Family Trust and Co-Trustee  
22 of the Mark S. Ritter and Dana E. Ritter Revocable Trust, and requests to be allowed to present  
23 evidence as to water usage in the Phase VI trial and, in support thereof, alleges as follows:

24 1. Mark Ritter first met with undersigned counsel on August 14, 2015 to discuss  
25 possible representation in this case. Terms of representation were agreed to as of September 21,  
26 2015.

27 2. Prior to formalizing the representation, and to make sure that the court and all  
28

1 parties were aware of my clients claim as to water usage, I caused to be filed a Case Management  
2 Conference Statement with this court on September 3, 2015 in advance of the September 4, 2015  
3 Case Management Conference. That Statement, which is Document # 10388 on the court's  
4 docket, and among other things, indicated the following (which is italicized for ease of reference):

5 *Mark Ritter's mother, Paula E. Ritter, and his father, Edgar C. Ritter, were formerly the*  
6 *Trustees of the Ritter Family Trust. According to the attorney for the Antelope Valley Ground*  
7 *Water Agreement Association ("AGWA"), Michael T. Fife, the Ritter Family Trust was*  
8 *approached about becoming involved as a part of the AGWA in this litigation.*

9 *While Mark Ritter does not know what exactly happened, as both his father Edgar and*  
10 *mother Paula are now deceased, undersigned counsel searched the court's docket and*  
11 *determined that an answer and cross complaint was filed by Mr. Fife's office on behalf of Edgar*  
12 *C. Ritter, Paula E. Ritter, and Paula E. Ritter as Trustee of the Ritter Family Trust, with the*  
13 *answer being filed January 2, 2007 and a first amended cross-complaint of the AGWA being filed*  
14 *January 26, 2007. Mark Ritter was unaware of these filings until undersigned counsel located*  
15 *them just prior to a meeting with Mr. Ritter on August 14, 2015. Thereafter, Mr. Ritter engaged*  
16 *undersigned counsel to represent him in this case.*

17 *Counsel for the AGWA has indicated that nothing was done on behalf of the Ritter Family*  
18 *Trust, despite the fact that Mr. Fife's firm continues as counsel of record for the Ritter Family*  
19 *Trust, and now the Ritter Family Trust finds it in a position where it's counsel of record did not*  
20 *take steps to represent its client nor did it not substitute out of said representation. All of these*  
21 *actions occurred prior to the time Mark Ritter was successor trustee and prior to the time Mark*  
22 *Ritter ever even knew about this particular litigation.*

23 *The Ritter Family Trust does pump groundwater every year and primarily grows alfalfa.*  
24 *Records are currently being obtained as to its water production which has occurred for many*  
25 *years in the past.*

26 *In fairness to the Ritter Family Trust, undersigned counsel would request that the court*  
27 *sever it from the upcoming trial in September 28, 2015, and allow it the opportunity to produce*  
28 *documents as to its water usage and to conceivably be included in a settlement or at least allow*

1 at the opportunity to prove up its use at a subsequent hearing.

2 Counsel does not want to unduly delay the issues, but because of the representation issue  
3 referenced above and now the obvious need of the Ritter Family Trust to protect his own interests  
4 and obtain its own counsel, this request is being made in fairness. Undersigned counsel will also  
5 request that Mr. Fife's office formally execute a substitution of attorneys substituting in Brumfield  
6 & Hagan in place of Mr. Fife's firm. Accordingly, the Ritter Family Trust requests that it be  
7 allowed time to gather such documents and evidence as may be necessary to support its claims in  
8 these cases and to present that to the court at a later time.

9 3. It was either at the September 4, 2015 or September 21, 2015 Case Management  
10 Conference that the claim of my client was discussed on the record. While the court did not  
11 indicate that the claim would be severed as requested in the above-referenced referenced Case  
12 Management Conference Statement, the court did state that the claims of my clients would be  
13 trailed to allow my clients an opportunity to gather and present evidence as to water usage in the  
14 hopes that an agreed resolution of their claims could occur.

15 4. Undersigned counsel has worked diligently to obtain electrical consumption  
16 information, all of the Hydraulic Tests performed by Southern California Edison, history of crop  
17 production and land ownership, and are filing today a declaration of Mark Ritter as to water  
18 usage. That declaration shows that over the past 23 years, the average annual water usage on the  
19 150 acres on which alfalfa is grown is 803.3 acre-feet per year. The fact of my client's water  
20 usage and the extent thereof certainly should not come as a surprise to parties who know of my  
21 client's long presence in the Antelope Valley area and certainly should not be a surprise to any  
22 member of AGWA. My client and his family have farmed in the Antelope Valley for well over  
23 40 years.

24 5. As to the Substitution of Attorney issue, which is referenced in "Richard Wood's  
25 Objection To Purported Claim Of Ritter Trust" filed in this case on November 2, 2015, which  
26 Objection is Document #117018 on the court docket, undersigned counsel thought a Substitution  
27 had already been sent to Mr. Fife's office but upon being alerted that it had not been filed as of  
28 yesterday by Mr. McLachlan, a Substitution was promptly prepared, signed, and forwarded to Mr.

1 Fife to sign and return the same to my office for filing. As of this particular time, I have not  
2 received the signed Substitution back from Mr. Fife although he has indicated he will sign and  
3 return it to my office today for filing.

4 6. As to the presentation of evidence by my client, I do not believe that would take  
5 more than an additional day of court time, and likely less time than that. The items of evidence  
6 that would need to be submitted in support of my clients claim include the following:

7 a. Hydraulic Test results and records of electrical consumption. I would  
8 suspect that the Hydraulic Test results and the amount of water pumped would be  
9 agreed to be submitted without objection as these are simply records from SCE  
10 and which can be verified by Mr. Koch as has been done by him throughout this  
11 trial as to various parties' water usage.

12 b. Records of property ownership. Certified copies of the documentation can  
13 be obtained from the Los Angeles County Recorder's Office and would  
14 conceivably be subject to judicial notice. It would seem as though this evidence  
15 would be submitted with little or no objection.

16 c. Proof of actual farming operations. This would likely require the personal  
17 testimony of Mr. Ritter and the production of records that show production from  
18 the property in question.

19 7. The undersigned is aware of what types of information has been requested  
20 through recent discovery occurring after the time the undersigned became involved in this case on  
21 behalf of Charles Tapia, which is approximately one year ago. Also, Mr. Ritter would be  
22 available for deposition in the near future should any party so desire to conduct and participate in  
23 the same and to produce such further information as may be requested to the extent that the same  
24 is discoverable under California law.

25 8. In addition, it is submitted that this situation is somewhat similar to that with  
26 Robar. It seems that if Robar can have its evidence heard later, there is no reason that the Ritter's  
27 cannot be heard at that same later time. Under the proposed Judgment, at Section 5.1.10 thereof,  
28 undersigned counsel understands that the Judgment contains a pool of over 5,000 acre-feet to be

1 used to accommodate claims of non-stipulating parties, and that less than 100 acre-feet has been  
2 allocated as of this time. Accordingly, there seems to be sufficient water provided in the  
3 judgment for the Ritter's claimed usage.

4 9. On behalf of the undersigned's clients, we are requesting that the court set aside  
5 time in the future to allow testimony and presentation of evidence by Mr. Ritter as to the  
6 aforementioned water usage in connection with the growing of alfalfa in the Antelope Valley. As  
7 to timing for presentation of testimony, sometime during the weeks of December 7, 2015 or  
8 December 14, 2015 would be preferable. If those cannot be accommodated, counsel would  
9 suggest after the New Year.

10 WHEREFORE, Mark Ritter, Successor Trustee of the Ritter Family Trust and Co-Trustee  
11 of the Mark S. Ritter and Dana E. Ritter Revocable Trust requests that in the interest of justice he  
12 be allowed to present evidence as to water usage in the Phase VI trial on such terms as the court  
13 may deem just and proper under the circumstances.

# Account Overview For 023-4018-26

## Account Profile Information

### Name / Address Information

Customer Name: R R RANCH  
Customer Address: 51201 90TH ST W  
LANCASTER, CA 93536  
Service Account Name: R R RANCH  
Service Account Address: 51201 90TH ST  
LANCASTER, CA 93536

### Customer / Account Information

Customer Number: 0-937-7536  
Customer Account Number: 25-592-0951  
Service Account Number: 023-4018-26  
Installed Service Number: 0052-155-65  
Site Number: 00702-65-00  
Premise ID: 3588191  
L. R. Number: 3663229  
Cag Cid Number: 62-36-703-7725-01

### Service Account Properties

Account Status: ACTIVE  
Direct Access: NO  
Facility SIC: 0139  
Meter Number: 3412M001012  
Meter Phase: 3  
Service Voltage: 480

### Annual Summary

(Most recent 12 Months)

Annual kWh Usage: 241,277  
Annual Max kW: 72  
Annual Max kVA: UNAVAILABLE  
Annual Max kVAR: 0  
Power Factor: 100.0  
Annual Billed Total: \$23,824.04  
\* Average Cost/kWh: \$0.09874

## Billing Summary

Data displayed in this report is current as of the date of the most recent billing period seen in the Billing Summary section below. Account activity subsequent to this date may impact the data presented in this report.

\* The average cents/kWh value is determined by dividing the total bill amount by the total quantity of kWh usage. The total bill amount, and therefore the average cents/kWh, contains all charges including, but not limited to, energy charges, demand charges, service charges, late payment charges, and applicable taxes.

| Read Date  | Days | Tariff    | kWh Usage | Max kW | Load Factor | LPC Amount | City Tax | Cents / kWh | Billed Amount |

This rate analysis is based on applicable Southern California Edison (SCE) rates and is provided to illustrate potential bill impacts to help you evaluate your current rate and/or compare alternative SCE rates or rate options. While this rate analysis provides accurate rate calculations, it is based on certain assumptions for usage and applicable rate factors. The results of this analysis are based on actual historical energy consumption and/or assumptions about future energy consumption patterns and amounts. SCE can neither predict nor guarantee any actual cost savings or increases due to the changes in usage variables or applicable rate factors such as: operating hours, equipment, kW charges, weather patterns, service voltage, firm service levels, taxes, and added facilities charges. Changes to these numerous variables will affect actual costs. This rate analysis is intended to compare selected rate schedules and may not include all of your rate options. Please contact SCE for more information about this analysis or your available rate options. If you have a SCE account representative, please contact your SCE account representative for more information about this analysis or your available rate options.

This rate analysis is based on applicable Southern California Edison (SCE) rates and is provided to illustrate potential bill impacts to help you evaluate your current rate and/or compare alternative SCE rates or rate options. While this rate analysis provides accurate rate calculations, it is based on certain assumptions for usage and applicable rate factors. The results of this analysis are based on actual historical energy consumption and/or assumptions about future energy consumption patterns and amounts. SCE can neither predict nor guarantee any actual cost savings or increases due to the changes to usage variables or applicable rate factors such as, operating hours, equipment, kW charges, weather patterns, service voltage, firm service levels, taxes, and added facilities charges. Changes to these numerous variables will affect actual costs. This rate analysis is intended to compare selected rate schedules and may not include all of your rate options. Please contact SCE for more information about this analysis or your available rate options. If you have a SCE account representative, please contact your SCE account representative for more information about this analysis or your available rate option.

### Service Account Properties

Account Status: ACTIVE  
Direct Access: NO  
Facility SIC: 0139  
Meter Number: 345M001034  
Meter Phase: 3  
Service Voltage: 480

### Annual Summary

(Most recent 12 Months)

Annual kWh Usage: 343,287  
Annual Max kW: 110  
Annual Max kVar: UNAVAILABLE  
Annual Max kVar: 0  
Power Factor: 100.0  
Annual Bill Total: \$33,374.18  
Average Cent/kWh: \$0.09722

## Billing Summary

Data displayed in this report is current as of the date of the most recent billing period seen in the Billing Summary section below. Account activity subsequent to this date may impact the data presented in this report.

\* The average cent/kWh value is determined by dividing the total bill amount by the total quantity of kWh usage. The total bill amount, and therefore the average cent/kWh, contains all charges including, but not limited to, energy charges, demand charges, service charges, late payment charges, and applicable taxes.

| Read Date  | Days | Terr      | kWh Usage | Max kW | Load Factor | LPC Amount | City Tax | Cent / kWh | Bill Amount |

This rate analysis is based on applicable Southern California Edison (SCE) rates and is provided to illustrate potential bill impacts to help you evaluate your current rate and/or compare alternative SCE rates or rate options. While this rate analysis provides accurate rate calculations, it is based on certain assumptions for usage and applicable rate factors. The results of this analysis are based on actual historical energy consumption and/or assumptions about future energy consumption patterns and amounts. SCE can neither predict nor guarantee any actual cost savings or increases due to the changes to usage variables or applicable rate factors such as operating hours, equipment, kWVar charges, weather patterns, service voltage, firm service levels, taxes, and added facilities charges. Changes to these numerous variables will affect actual costs. This rate analysis is intended to compare selected rate schedules and may not include all of your rate options. Please contact SCE for more information about this analysis or your available rate options. If you have a SCE account representative, please contact your SCE account representative for more information about this analysis or your available rate option.

# Account Overview For 023-2380-24

## Billing Summary (continued)

Data displayed in this report is current as of the date of the most recent billing period seen in the Billing Summary section below. Account activity subsequent to this date may impact the data presented in this report.

\* The average cents/kWh value is determined by dividing the total bill amount by the total quantity of kWh usage. The total bill amount and therefore the average cents/kWh, contains all charges including, but not limited to, energy charges, demand charges, service charges, late payment charges, and applicable taxes.

| Read Date      | Days         | Tariff       | kWh Usage        | Max kW    | Load Factor | LPG Amount    | City Tax          | Cents / kWh      | Billed Amount       |

The following energy efficiency analysis is presented as an aid to your cost accounting. This is an estimate based on the conditions present during the Edison pump test performed on July 9, 2009, billing history for the past 12 months, and your current rate of TOU-P-2-8-1.

Assuming that water requirements will be the same as for the past year, and all operating conditions (annual hours of operation, head above, and water pumping level) will remain the same as they were at the time of the pump test, it is estimated that:

1. Overall plant efficiency can be improved from 65.4% to 69.0%.
2. This can save you up to 14,292 kWh and \$1,007.15 annually.
3. These kWh savings translate to a 6.2-ton decrease in CO<sub>2</sub> emissions.

|                              | Existing    | Plant Efficiency Improved | Savings    |
|------------------------------|-------------|---------------------------|------------|
| Total kWh                    | 277,092     | 262,800                   | 14,292     |
| kW Input                     | 66.00       | 62.60                     | 3.40       |
| kWh per Acre Foot            | 612         | 580                       | 32         |
| Acre Feet per Year           | 453         |                           |            |
| Average Cost per kWh         | \$0.07      |                           |            |
| Average Cost per Acre Foot   | \$43.10     | \$40.88                   | \$2.22     |
| Overall Plant Efficiency (%) | 65.4        | 69                        |            |
| Total Annual Cost            | \$19,526.67 | \$18,519.52               | \$1,007.15 |

It is sincerely hoped that this information will prove helpful to you, and that your concerns over maintaining optimum energy efficiency will be continued. If you have any questions regarding this report, please contact RICK KOCH at (805)854-7312.

**PUMPING COST ANALYSIS: MARTINEZ WEST**

Location: 51201 90TH ST LANCASTER CA 93536

C&S Cust #: 0-937-7536 CRM Cust #: 0004312509 Pump Ref. #: 2771  
C&S Serv. Acct. 023-2380-24 CRM Serv. Acct.: 0053100298 Meter: 345M-1034

The following energy efficiency analysis is presented as an aid to your cost accounting. This is an estimate based on the conditions present during the Edison pump test performed on July 20, 2009, billing history for the past 12 months, and your current rate of TOU-P-2-S-1-.

Assuming that water requirements will be the same as for the past year, and all operating conditions (annual hours of operation, head above, and water pumping level) will remain the same as they were at the time of the pump test, it is estimated that:

1. Overall plant efficiency can be improved from 60.6% to 70.0%.
2. This can save you up to 49,692 kWh and \$3,460.02 annually.
3. These kWh savings translate to a 22-ton decrease in CO<sub>2</sub> emissions.

|                              | <u>Existing</u> | <u>Plant Efficiency Improved</u> | <u>Savings</u> |
