

ANTELOPE VALLEY GROUNDWATER ADJUDICATION  
PHASE VI TRIAL

EXHIBIT: CAL-WATER 3-9

SEPTEMBER 28, 2015

LANCASHIRE TARIFF JULY 1997

UPDATED TO WATER RATES JULY 1, 2015

Schedule No. AV-LAN-1-R

Antelope Valley Tariff Area

(Lancaster Service Area)

RESIDENTIAL METERED SERVICE

APPLICABILITY

Applicable to all metered water service provided to single-family residential customers.

TERRITORY

A portion of the community of Lancaster and vicinity, Los Angeles County.

RATES

Quantity Rates:

For the first 1,400 cubic feet, per 100 cubic feet.....	\$2.8778	(I)
For the next 4,200 cubic feet, per 100 cubic feet.....	\$3.0942	
For all over 5,600 cubic feet, per 100 cubic feet.....	\$3.7130	(I)

Service Charge:

	Per Meter Per Month	
For ..... 5/8 x 3/4 - inch meter	\$54.61	(I)
For ..... 3/4 - inch meter	\$81.91	
For ..... Fire Sprinkler with 1 - inch meter	\$55.70	
For ..... 1 - inch meter	\$136.51	
For ..... 1-1/2 - inch meter	\$273.03	
For ..... 2 - inch meter	\$436.84	
For ..... 3 - inch meter	\$819.08	
For ..... 4 - inch meter	\$1,365.13	
For ..... 6 - inch meter	\$2,730.27	
For ..... 8 - inch meter	\$4,368.43	
For ..... 10 - inch meter	\$6,279.62	
For ..... 12 - inch meter	\$9,009.89	
For ..... 14 - inch meter	\$12,286.21	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

SPECIAL CONDITIONS

1. Qualifying low-income individually metered residential customers are eligible for credits as shown on Schedule LIRA.
2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule LIRA** (Low-Income Ratepayer Assistance), and **Schedule AS** (Additional Surcharges and Surcredits).
3. Fire sprinkler rates: A single-family residence with a meter size that has a "fire sprinkler" rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the "fire sprinkler" rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

SERVICE TO PRIVATELY OWNED FIRE PROTECTION SYSTEMS

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

All communities served by the Antelope Valley District.

RATES

	<u>Per Month</u>
For each inch of diameter of service connection .....	\$9.1863

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule UF.
2. The customer will pay, without refund, the entire cost of the private fire service facilities.
3. The private fire service facilities shall be installed by the utility or under the utility's direction and shall be the sole property of the applicant but subject to the control of the utility, with the right to alter, repair, replace and the right to remove upon discontinuance of service.
4. The minimum diameter for the private fire service connection will be four inches. The maximum diameter shall not be larger than the diameter of the water main to which the private fire service facilities are connected.
5. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed by the utility at the cost of the customer. Such cost shall not be subject to refund.
6. The private fire service facilities will include a detector check valve or other similar device acceptable to the utility which will indicate the use of water. The facilities may be located within the customer's premises or within public rights of way adjacent thereto. Where located within the premises, the utility and its duly authorized agents shall have the right of ingress to and egress from the premises for all purposes related to said facilities. In the event the installation is solely for a private fire hydrant facility, the requirement for a detector check valve or other similar device may be waived.
7. No structure shall be built over the private fire service facilities and the customer shall maintain and safeguard the area occupied by the private fire service facilities from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from the use or operation of appliances and facilities on customer's premises or otherwise.
8. Subject to the approval of the utility, any change in the location or construction of the private fire service facilities as may be requested by public authority or the customer will be made by the utility following payment to the utility of the entire cost of such change.
9. The customer's installation must be such as to separate effectively the private fire service facilities from that of the customer's regular domestic water service. Any unauthorized use of water from the private fire service facilities will be charged for at the applicable tariff rates and may be grounds for the utility's discontinuing private fire service without liability to the utility.
10. There shall be no cross connection between the systems supplied by water through the utility's private fire service facilities and any other source of supply without the specific approval of the utility. The specific approval, if given, will at least require at the customer's expense a special double check valve installation or other backflow prevention device acceptable to the utility. Any cross connection may be grounds for immediately discontinuing private fire service without liability to the utility.
11. The utility will supply only such water at such pressure as may be available from time to time as a result of its normal operation of the system. The customer shall indemnify the utility and save it harmless against any and all claims arising against the utility for any loss or damage resulting from service under this schedule. Section 774 of the Public Utilities Commission Code limits the liability of the utility resulting from a claim regarding adequacy of pressure or supply for fire protection service.
12. The customer shall be responsible for the periodic testing of any backflow prevention devices as required by public authority or the utility. Any repair or replacement of such devices or of any other facilities installed to provide private fire service shall be done at the customer's expense. Any refusal to comply with the above requirements may be grounds for the utility's discontinuing private fire service without liability to the utility.
13. A Temporary Interest Rate Balancing Account surcredit of \$0.56 per service per month will be applied to each bill for 12 months, beginning August 31, 2012, the effective date of Advice Letter 2084.
14. A Water Cost of Capital Memorandum Account surcredit of \$1.26 per service per month will be applied to each bill for 12 months, beginning September 1, 2012, the effective date of Advice Letter 2085. (N)
