**SUPPLEMENT TO DECLARATION OF**  
**EDWARD A. WOPSCHALL IN LIEU OF**  
**DEPOSITION TESTIMONY FOR PHASE 4**  
**TRIAL**

Counsel for the small pumper class has requested that Edward A. Wopschall (Declarant for Wagas Land Company) supplement his declaration so that the "description of the water use be further clarified, such that it is indicated that the property and water are also used for

1 *sporting purposes.*” He has also requested that further detail be supplied concerning  
2 domestic water use at the property. Accordingly, Edward A. Wopschall hereby supplements  
3 paragraph 36 of his previous declaration dated January 26, 2013, which was filed herein January  
4 29, 2013, to read as follows:

5 “36. The amount of water used on the parcels on an annual basis is set out in Exhibit I  
6 hereto. We keep track of the water used by well. We do not keep track of the water applied by  
7 APN numbers. The water is used to create wildlife habitat and a very small amount is used for  
8 domestic purposes. We provide wildlife habitat for two reasons. (a) First we provide wildlife  
9 habitat because we believe it contributes to the reproductive well being of both migratory and  
10 non-migratory wildlife. Both migratory and non-migratory wildlife need food, water and cover—  
11 all of which are in short supply in the Antelope Valley today. We believe this is particularly true  
12 of migratory waterfowl, the majority of which nest and breed on the Canadian prairie. They  
13 require food and rest as they migrate, both coming south in the fall and returning north in the  
14 spring. If they don’t have sufficient food and rest along the way, they arrive home on the  
15 Canadian prairies in poor condition which results in a low rate of reproduction. The Antelope  
16 Valley also has a resident population of waterfowl. Resident waterfowl also require food, water,  
17 cover and safe nesting areas. (b) Second we provide wildlife habitat so that Wagas members and  
18 their guests can make recreational use of the property. Those recreational uses include, but are  
19 not necessarily limited to, hunting (about one day per week during the hunting season), hiking,  
20 bird watching, dog training, clay pigeon shooting, teaching children and grandchildren about the  
21 outdoors and enjoying social events such as barbecues. Our use of water for domestic purposes  
22 consists of the domestic needs of the caretaker and his wife as well as the domestic needs of the  
23 members of Wagas Land Company LLC and their guests. That means that there are nearly  
24 always two people on the property using water for domestic purposes and from time to time there  
25 are as many as 20 to 25 people on the property using water for domestic purposes. In addition  
26 our domestic use includes watering landscaping in the area surrounding our cabins. I have been  
27 affiliated with Wagas Land Company for approximately the last 38 years. I know of my own  
28 personal knowledge that the foregoing description accurately reflects what has been occurring at

1 the property for that entire period of time. I also believe that it accurately reflects what has been  
2 occurring at the property since Wagas Land Company was formed in 1925".

3 I declare under penalty of perjury under the laws of the State of California that the  
4 foregoing is true and correct.
