**Re: Antelope Valley Groundwater Cases, Judicial Council Coordination Proceeding No. 4408 –
Notice of *Ex Parte* Application to Intervene in Judgment by Rabbitbrush Solar, LLC and US
Solar Assets, LLC**

To all parties and their attorneys of record:

On December 7, 2020, Rabbitbrush Solar, LLC and US Solar Assets, LLC will file an *ex parte* application requesting leave to intervene in the above-captioned action. The *ex parte* application will be submitted on the pleadings and without a hearing date. We have been informed by the clerk of the Court, that if an opposition to the application is not received within 24 to 48 hours, the Court will take the matter under submission or, if necessary, schedule a hearing on the matter. The *ex parte* application is made on the grounds that the Watermaster Board's December 2, 2020 approval of FS Land Holding Company, LLC's transfers to Rabbitbrush Solar, LLC and US Solar Assets, LLC is conditioned on the transferees' successful intervention into the above-captioned action, and there are no remaining hearing dates for the Court to consider a regularly-noticed motion prior to the end of the calendar year.

Please let me know if you intend to oppose the *ex parte* application.

Sincerely,

Bradley J. Herrema
