# Today's Water Crisis

The state is facing some of the most significant water challenges seen in the last half-century.

• Sacramento-San Joaquin River Delta is in ecological crisis

• Water deliveries cut to protect species

• Aging Delta levees vulnerable to natural disaster

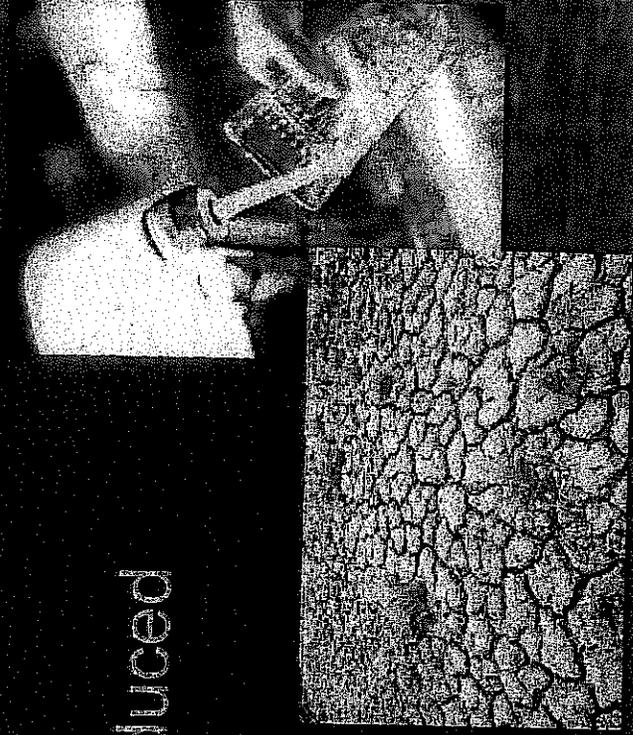

• Rapid population growth, yet no significant statewide system improvements in 30 years

[www.calwatercrisis.org](http://www.calwatercrisis.org)

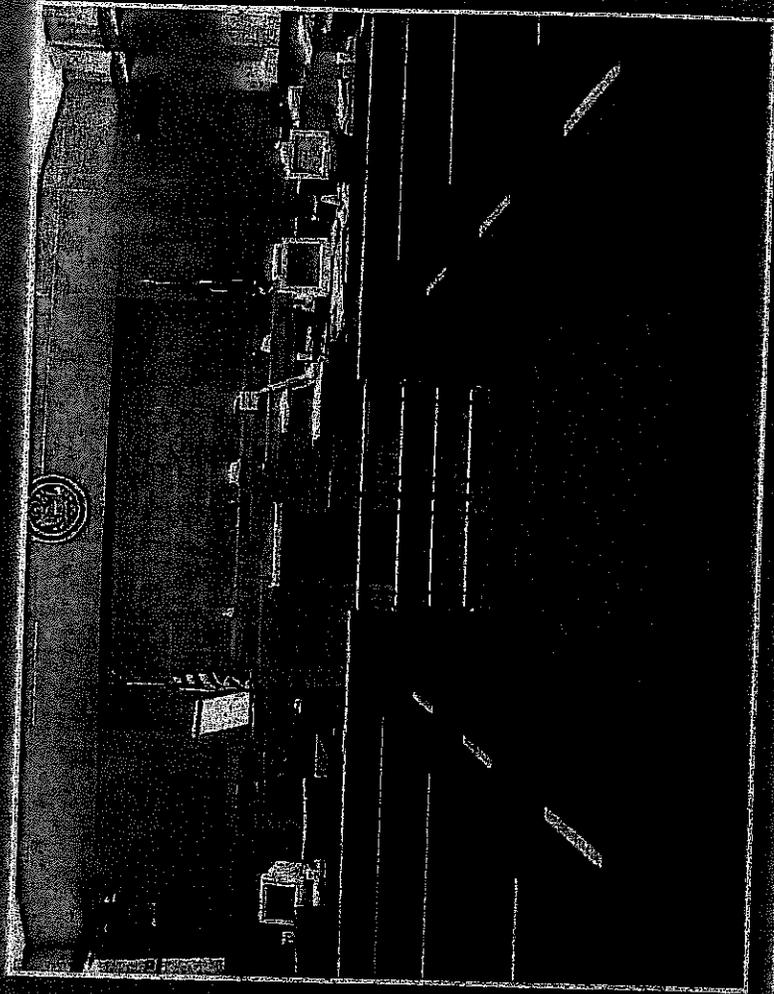

# Today's Water Crisis (cont.)

- Extremely low water reserves, unable to meet demand during a major disruption
- Record drought, may lead to water rationing
- Reduced water supplies; farmers fallowing agricultural land
- Climate change impacts, reduced snow pack
- Conservation not enough

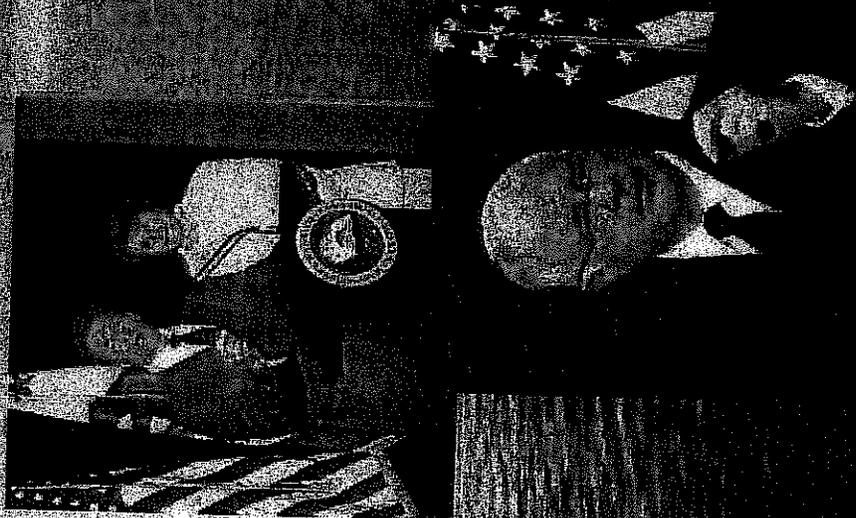

# Court Decisions

- Wanger #1 – Conveyance
- Wanger #2 – Surface Storage

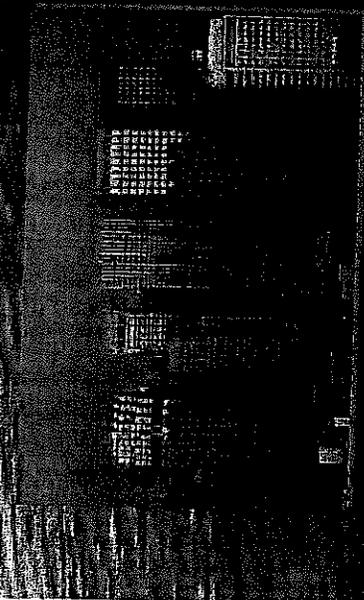

# Public Unaware of Challenges

- Despite intense media attention & focus by Governor and state legislators, the public is **UNAWARE** of the state's water problems
- ACWA and its member agencies are obligated to inform and educate the public about threats that could affect water supplies

# ACWA Launches Public Education Program

- Objective: Educate Californians and build concern about critical challenges now confronting the state's water supply and delivery system
- Statewide, multi-million dollar effort
- Scheduled to run through 2007
- Funded by voluntary contributions from public water agencies across the state

# Public Education vs. Advocacy

- ACWA program is designed as public education to define the problem, not advocate
- Under California law, public agencies may fund and take part in public education efforts
  - Information communicated must be factual
  - Program will not advocate for legislation or a ballot measure
  - Program will not encourage public to contact their legislators
  - Program will not issue a general call for action or advocate for any specific solution

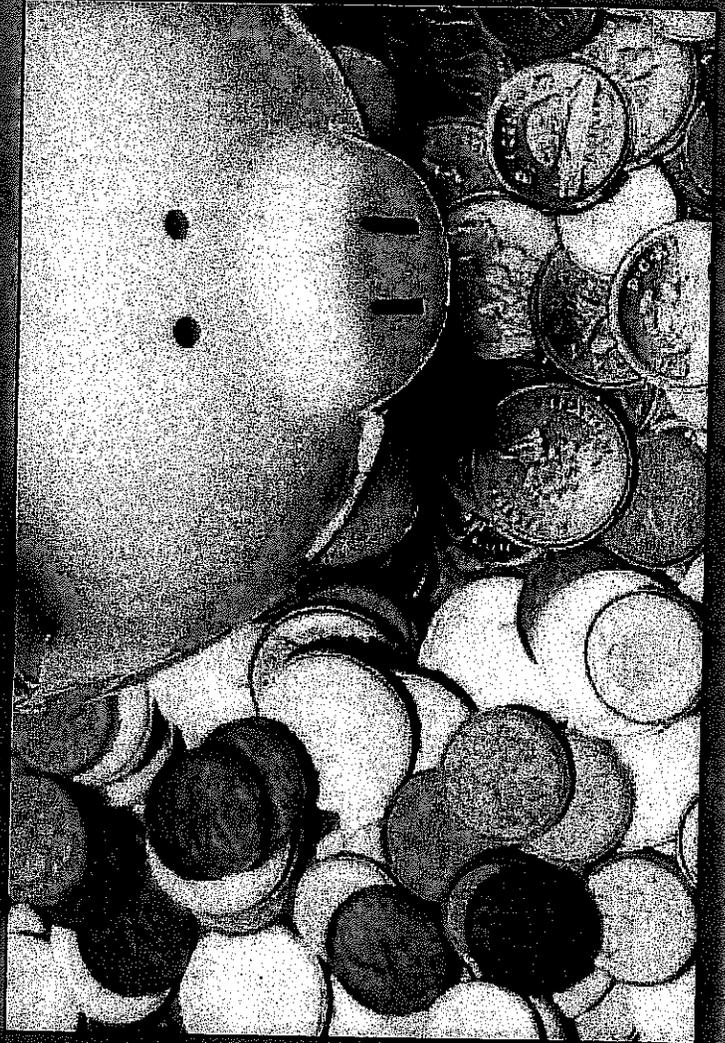

# Program Team

- ACWA – Program Management / Fundraising
- Winner & Associates – ad component
- Redgate Communications  
media/outreach
- Mayer, Brown, Row & Maw, LLP – legal consultation

# Fundraising

- o \$6.1 million (pledged/contributed)
- o \$7 million = budget goal
