Notice: Please read <i>Information Sheet for Proposed Settled Statement</i> (form APP-014-INFO) before completing this form. You must file this form in the superior court, not in the Court of Appeal.	

1. PRELIMINARY INFORMATION

- a. I am appealing (check one): ☒ an order filed on ☐ a judgment entered on (date): **May 14, 2025**
- b. On (date): **July 15, 2025**, I filed a notice of appeal. A copy of the judgment or order I am appealing is attached.
- c. On (date): **August 5, 2025**, (check the one that applies):
- (1) ☒ I filed a notice designating the record on appeal, choosing to use a settled statement.
- (2) ☐ The court sent me ☐ I was served with an order granting my request to use a settled statement.
- d. ☐ On (date):, the court ordered me to modify or correct my proposed settled statement.

2. REASONS FOR YOUR APPEAL

(Check all that apply and describe the error or errors you believe were made that are the reasons for this appeal.)

- a. ☒ **No substantial evidence.** There was no substantial evidence that supported the judgment or order that I am appealing.
 (Explain why you think the judgment or order was not supported by substantial evidence.)
 The Watermaster's motion relied on the Judgment as authority, but it does not override the bundle of rights that directly descend from the federal land patent from over 100 years ago.

☒ [Attachment 2a](#)

- b. ☒ **Errors.** The following error or errors about either the law or court procedure affected the outcome of the case (Describe each error.)
 The Judge failed to properly take into account the impact of the Federal Land Patent.

SHORT TITLE: Antelope Valley Groundwater Cases	CASE NUMBER: B348133
---	-------------------------

ATTACHMENT (Number): 2a

(This Attachment may be used with any Judicial Council form.)

On October 28, 2024, the Antelope Valley Watermaster filed a Motion for Monetary, Declaratory and Injunctive Relief Against Annette Moore and Bennie Moore arguing that the Moores were included in the lists of “Non Appearing Parties“ at Exhibits B and D to the Judgment and Physical Solution entered on December 23, 2015 and, as such, are the same as defaulted parties which have no water rights pursuant to the Judgment; and that the Moores had been producing and selling water derived from the Antelope Valley Adjudicated Basin without paying assessments under Judgment. The motion conceded that the Moores own Property overlying the Basin. The Motion sought declaratory and injunctive relief to prohibit the Moores and anyone acting on their behalf from producing any further groundwater from the Basin until the Moores: (1) submit Annual Water Production Reports for years 2016 through 2023; (2) pay delinquent Assessments with interest thereon and Watermaster’s attorneys’ fees; (3) install approved water flow meters on all of their wells; and (iv) submit, and the Watermaster approves, an Application for “New Production”.

The Moores opposed the Motion because they hold federally reserved water rights as a result of the fact that the property at issue derives its title directly from a federal land patent. The Moores also opposed the Motion because they have long used the groundwater for domestic and irrigation uses on their overlying property, and they were denied due process because they did not receive notice of the trial or the judgment meaning they did not have the opportunity to be heard in the Court proceedings that resulted in allocation of water rights. In conjunction with the Opposition, the Moores explained that their land was deeded by the Southern Pacific Railroad to a predecessor owner who then deeded the land to Bitticks, who deeded it to Hunter, who deeded it to Moore. The Moores additionally clarified why the address and assessor’s parcel number changed because of highway construction. The Moores provided a certified copy of the land patent and a certified copy of the original land deed. The Moores also provided the Court with a transcription of the land patent and deed painstakingly prepared to assist in its reading.

On March 28, 2025, Judge Jack Komar held a telephonic hearing on the Motion using Courtcall. Craig Parton appeared for the Watermaster, and Marc Appell appeared for the Moores. Bennie and Annette Moore were also on the Courtcall. At the hearing, Mr. Parton argued that the documentation provided by the Moores related to their federal land patent was illegible and should not be considered by the Court. Mr. Parton additionally claimed that the assessor’s parcel number and address noted in the land patent documentation was different than those at issue. Mr. Appell referred the Court back to the land patent documentation provided with the Opposition, but the Judge refused to consider the certified documents. The Judge questioned how the Watermaster could know how much water had been used for purposes of charging the Moores, and expressed an intent to rule against the Watermaster on that particular issue. The Judge eventually issued an order on May 2, 2025, granting the Watermaster’s Motion.
