| 8  | Cross-Complainant, Crystal Organic Farms, LLC, (ROE 584), makes the following allegations  |

| 10 | Littlerock Creek Irrigation District, Los Angeles County Waterworks District No. 40, Palmdale Water  |
| 11 | District, Rosamond Community Services District, Palm Ranch Irrigation District and Quartz Hill Water   |
| 12 | District (collectively referred to herein as "Purveyors"), and ROES 1-200, inclusive, as follows:  |
| 13 | General Allegations:   |
| 14 | 1. California Water Service Company is a California corporation which provides water to  |
| 15 | customers located within the geographic boundaries of the Basin and which extracts water from the  |
| 16 | Basin.   |
| 17 | 2. City of Lancaster is a municipal corporation located within the County of Los Angeles,  |
| 18 | and within the geographic boundaries of the Basin.   |
| 19 | 3. City of Palmdale is a municipal corporation located within the County of Los Angeles,   |
| 20 | and within the geographic boundaries of the Basin.   |
| 21 | 4. Littlerock Creek Irrigation District is a public agency which provides water to customers   |
| 22 | located within the geographic boundaries of the Basin and which extracts water from the Basin.   |
| 23 | 5. Los Angeles County Waterworks District 40 (hereinafter "District 40") is a public agency  |
| 24 | governed by the Los Angeles County board of Supervisors operating under Division 16 of the California  |
| 25 | Water Code. District 40 was established on November 4, 1993 to provide water service to the public   |
| 26 | within the Antelope Valley.  |

Palmdale Water District (hereinafter "Palmdale") was formed as a public irrigation
 district in 1918 and operates under Division 11 of the California Water Code and is producing water
 from the Antelope Valley Water Supply and selling it to its customers.

7. Rosamond Community Services District (hereinafter "Rosamond") is a County Water
District voted into being in 1966, and operating under Division 12 of the California Water Code to
provide water for domestic, irrigation, and fire flow, collection and treatment of waste and storm water,
maintenance of street lights, graffiti abatement and parks and recreation.

8 8. Palm Ranch Irrigation District is a public agency which provides water to customers
9 located within the geographic boundaries of the Basin and which extracts water from the Basin.

9. Quartz Hill Water District (hereinafter "Quartz Hill") is a county water district organized
 and operating under Division 12 of the California Water Code and is producing water from the Antelope
 Valley Water Supply and selling it to its customers.

13 10. Cross-Complainant Crystal Organic Farms (hereinafter "Crystal") is a limited liability 14 company that owns and leases overlying land within the Antelope Valley. Crystal owns and operates 15 water wells that draw water from beneath the land for use on the lands for irrigation. Crystal and its 16 predecessors in interest, are currently, and have historically, pumped water from beneath the land for 17 farming.

Cross-Complainant is ignorant of the true names and capacities of cross-defendants sued
 herein as ROES 1-200, inclusive, and therefore sue these cross-defendants by such fictitious names.
 Cross-Complainant will amend this Cross-Complaint to allege their true names and capacities when
 ascertained. Each reference in this Cross-Complaint to "Purveyors," "the Purveyors," or a specifically
 named cross-defendant, refers also to all cross-defendants sued under fictitious names.

12. Cross-Complainant, is informed and believes, and thereon alleges, that Rosamond,
District 40, Palmdale and Quartz Hill (collectively "the Purveyors") began pumping appropriated surplus
water from the Antelope Valley to provide water for their municipal and industrial water customers. At
///

27

28

the onset of pumping by the Purveyors, the same was lawful and permissive and did not immediately
 nor prospectively invade or impair any overlying right.

Over time, the urban areas within the Antelope Valley continued to expand and grow both 3 13. in land area and population, and thus, over time the Purveyors increased, and today, continue to increase 4 5 their demand for water. Cross-Complainant, is informed and believes, and thereon alleges, that at some as yet unidentified historical point, the aggregate extractions of groundwater from the Antelope Valley 6 began to exceed the safe yield of the Valley. Despite the potential for damage to the water supply and 7 8 the rights of owners of real property within the Valley, the Purveyors, with knowledge continued to 9 extract groundwater from the common supply, and increased and continue to increase their extractions of groundwater over time. The Purveyors continued the act of pumping with the knowledge that the 10 continued extractions were damaging, long term, the Antelope Valley and in the short term, impairing 11 12 the rights of the property owners, including the rights in the land owned by Crystal, which is overlying 13 and within the Antelope Valley.

Cross-Complainant, is informed and believes, and thereon alleges, that the Purveyors 14 14. pumped and continue to pump water in excess of the safe yield with the knowing intent and belief that 15 they could take by claim of prescription, without compensation, the water rights of Crystal and all 16 17 landowners overlying the Antelope Valley. Additionally, all Purveyors continued to pump ever increasing quantities of groundwater, knowing that even if their prescriptive claims failed, they could 18 19 preserve the right to continue their pumping under a claim of an intervening public use. Despite the knowing intent to take the overlying property landowners' rights, no Purveyor took any steps calculated 20 and intended to inform or otherwise notify any landowner of their adverse and hostile claim or that their 21 22 pumping of groundwater was an invasion of and a taking of the landowners' property rights.

2

During the material time that each Purveyor was pumping, none physically trespassed
 upon nor invaded any overlying property. No Purveyor stopped, restricted, interfered with or physically
 or by regulation reduced Crystal's or any overlying landowner's right and ability to pump groundwater
 from the Antelope Valley. No Purveyor ever took any affirmative action reasonably calculated to

27

28

inform or notify any overlying landowner that the Purveyor intended to take or were taking by
 prescription the overlying water rights.

3 16. Between 1960 and 1980, the Antelope Valley East Kern Water Agency (hereinafter 4 "AVEK") was created to import water from northern California to southern California. As part of its 5 operations, AVEK, in addition to other water importers, have brought and now brings imported water to the Antelope Valley. This imported water was at all material times available for purchase by the 6 7 Purveyors. Based upon information and belief, it is alleged that the Purveyors consciously chose to not 8 purchase all of the available higher priced imported water to meet their water needs and instead chose 9 to continue to pump and to increase their extractions of groundwater from the Antelope Valley, because, 10 despite the damage to the Valley, groundwater was cheaper than the imported water.

11 17. In late 2004, the Los Angeles County Board of Supervisors unanimously voted to
authorize District 40 to file and prosecute the present legal actions which seeks a judicial declaration that
District 40 has obtained, without compensation and without due process notice, the overlying
landowner's appurtenant water rights through the common law doctrine of prescription. Based on this
authorization, District 40 filed these actions.

16 18. Crystal did not have actual knowledge that any Purveyor's pumping of groundwater was
17 adverse to or hostile to its present and/or future priority rights.

18 19. Based upon information and belief, no landowner had actual knowledge that any
19 Purveyor's pumping of groundwater was adverse to or hostile to its present and/or future priority rights.
20 20. In January 2006, the Purveyors identified herein jointly filed a Cross-Complaint in place
21 of the original Complaint seeking to obtain a judicial declaration that they had obtained the overlying
22 landowner's water rights, without compensation, within the Antelope Valley through the common law
23 doctrine of prescription.

In January 2007, the Purveyors identified herein jointly filed the present First Amended
 Cross-Complaint in place of the Cross-Complaint and in place of the original Complaint seeking to

| 11       | 24. In or about 1951, the Legislature of the State of California enacted Sections 55000 et seq.   |
| 12       | of the Water Code, known as the County Waterworks District Law, hereinafter referred to as the  |
| 13       | "Waterworks Statutes." In 1953, the legislature added section 55370. This section, since its adoption has   |
| 14       | been, and now is, in full force and effect. This statute provides as follows:   |
| 15<br>16 | "A district may acquire property by purchase, gift, devise, exchange, descent, and<br>eminent domain. The title to all property which may have been acquired for a district<br>shall be vested in the district."  |
| 17       | 25. District 40 contends that section 55370 of the Water Code does not apply to, or limit in  |
| 18       | any manner, its acquisition of any overlying landowner's water rights within the Antelope Valley and  |
| 19       | that, despite its status as a public entity, Article 1, Section 19 of the California Constitution, and the 5th  |

| 23       | 26. Crystal contends that the statute is constitutional, and when conjoined with the California   |
| 24       | state and Federal Constitutions, limits the method, manner and mode by which District 40 may acquire  |
| 25       | private property for a public use and the rights appurtenant thereto. By virtue of the actions of District  |

between District 40 and Crystal concerning their respective rights, duties, and responsibilities under that
 statute and both Constitutions.

Crystal desires a declaration of its rights with respect to the constitutionality and 3 application or nonapplication of the statute and asks the court to make a declaration of such rights, 4 duties, and responsibilities, and to make a declaration as to the validity and constitutionality of the 5 statute. Crystal seeks a declaration that the effort of the district to deprioritize Crystal's overlying right 6 7 is, without compensation, ultra vires and unconstitutional. (Declaratory Relief Against Palmdale Water District to Determine Validity of Statute)
 30. Cross-Complainant refers to and incorporates, as though fully set forth herein, paragraphs
 1 through 22, inclusive, of this Cross-Complaint.

31. In or about 1943, the Legislature of the State of California enacted Sections 20500 et seq.
of the Water Code, known as the Irrigation District Law, hereinafter referred to as the "Irrigation

Statutes." In 1943, the legislature added section 22456. This section, since its adoption has been, and now is, in full force and effect. This statute provides as follows:

"The district may exercise the right of eminent domain to take any property necessary to carry out its purposes."

32. Palmdale contends that section 22456 of the Water Code does not act to limit, in any manner, the mode or method of acquiring an overlying landowner's water rights within the Antelope Valley and that, despite its status as a public entity, Article 1, Section 19 of the California Constitution, and the 5th Amendment to the Federal Constitution, it is nonetheless empowered to acquire private property for public use through the common law doctrine of prescription, without due process and without compensation.

33. Crystal contends that the statute is constitutional, and when conjoined with the California state and Federal Constitutions, limits the method, manner and mode by which Palmdale may acquire private property for a public use and the rights appurtenant thereto by declaring that the only legal right of the district to take possession of land without consent of the owners is under its power of eminent domain. By virtue of Palmdale's actions as set forth above, an actual controversy has arisen and now exists between Palmdale and Crystal concerning their respective rights, duties, and responsibilities under that statute and both Constitutions.

34. Crystal desires a declaration of its rights with respect to the constitutionality and 18 application or nonapplication of the statute and asks the court to make a declaration of such rights, 19 duties, and responsibilities, and to make a declaration as to the validity and constitutionality of the 20statute. Crystal seeks a declaration that the effort of the district to deprioritize Crystal's overlying right 21 is, without compensation, ultra vires and unconstitutional. Such a declaration is necessary and 22 appropriate at this time in order that Crystal's property rights be protected and to ensure that Palmdale 23 proceeds according to the law and Constitution of the state and the Federal Constitution. There are no 24 administrative remedies available to Crystal. 25

| 13       | of the Water Code, known as the County Water District Law, hereinafter referred to as the "County   |
| 14       | Water Statutes." In 1975, the legislature amended section 31040. This amended statute became operative  |
| 15       | on July 1, 1976 and since then, has been, and now is, in full force and effect. This section provides as  |

 the only legal right of the districts to take possession of property without consent of the owners is under
 its power of eminent domain. By virtue of Rosamond's and Quartz Hill's actions as set forth above, an
 actual controversy has arisen and now exists between Rosamond, Quartz Hill and Crystal concerning
 their respective rights, duties, and responsibilities under that statute and both Constitutions.

6 41. Crystal desires a declaration of its rights with respect to the constitutionality and 7 application or nonapplication of the statute and asks the court to make a declaration of such rights, duties, and responsibilities, and to make a declaration as to the validity and constitutionality of the 8 statute. Crystal seeks a declaration that the effort of the district to deprioritize Crystal's overlying right 9 is, without compensation, ultra vires and unconstitutional. 20 Fourth Cause of Action 2122 (Declaratory Relief Against All Cross-Defendants to Determine Applicability of California Constitution.) 23 44. 24 Cross-Complainant refers to and incorporates, as though fully set forth herein, paragraphs 25 1 through 43, inclusive, of this Cross-Complaint. 26 27 10 CROSS-COMPLAINT OF CRYSTAL ORGANIC FARMS FOR EQUITABLE AND MONETARY RELIEF AGAINST CALIFORNIA WATER 28 SERVICE COMPANY, CITY OF LANCASTER, CITY OF PALMDALE, LITTLEROCK CREEK IRRIGATION DISTRICT, LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 40, PALMDALE WATER DISTRICT, ROSAMOND COMMUNITY SERVICES DISTRICT, PALM RANCH IRRIGATION DISTRICT AND QUARTZ HILL WATER DISTRICT

45. Article 1 Section 19 of the California Constitution provides as follows: 1 2 "Private property may be taken or damaged for public use only when just compensation, ascertained by a jury unless waived, has first been paid to, or into court for, the owner. The Legislature may provide for possession by the condemnor following commencement 3 of eminent domain proceedings upon deposit in court and prompt release to the owner of money determined by the court to be the probable amount of just compensation." 4 5 46. The Purveyors contend that, even though they are political subdivisions who are vested 6 with the power of eminent domain, they are nonetheless legally permitted to knowingly take private 7 property for public use without first paying just compensation. 8 47. Crystal contends that the use of the word "only" within Article 1 Section 19 is a clear 9 temporal limitation on the Purveyor's lawful ability to knowingly take private property for the public 10 benefit to only those instances where just compensation has first been paid. By virtue of the Purveyor's 11 actions as set forth above, an actual controversy has arisen and now exists between the Purveyors and 12 Crystal concerning their respective rights, duties, and responsibilities. 13 48. Crystal desires a declaration of its rights with respect to the application or nonapplication 14 of Article 1 Section 19 to the Purveyors and asks the court to make a declaration of such rights, duties, 15 and responsibilities. Such a declaration is necessary and appropriate at this time in order that Crystal's 16 property rights may be protected and to ensure that the municipal Purveyors proceed according to the 17 California Constitution. There are no administrative remedies available to Crystal. 18 49. A timely declaration by this court is urgent for the following reasons: by way of this 19 action the Purveyors are seeking to adjudicate, enjoin and take the property rights of Crystal and 20 thousands of other parties who own property overlying the water supply without first paying just 21 compensation therefor, absent a timely declaration by this court, injustice will result from the improper 22 taking of the Crystal's property rights should Article 1 section 19 of the California Constitution be found 23 to apply. 24 50. | 12          | property for public use through prescription or adverse possession and without compensation.  |
| 13          | 54. Crystal contends that the use of the word "only" within Article 1 Section 19 is a clear   |
| 14          | limitation on the Purveyor's authority and the manner in which they may take private property for the   |
| 15          | public benefit. That this limitation forecloses the ability of any governmental entity to knowingly take  |
| 16          | or acquire private property for a public use under a theory of prescription or adverse possession. By   |
| 17          | virtue of the Purveyor's actions as set forth above, an actual controversy has arisen and now exists  |

| 19          | 55. Crystal desires a declaration of its rights with respect to the application or nonapplication   |

| 22 | 61. Crystal contends that the Article I, Section 7, of the State Constitution, and the $5^{th}$  |

| 24 | entities must provide substantive and procedural due process of law when taking private property for a   |

the governmental entity's adverse and hostile claim. Crystal further contends that this limitation
 forecloses the ability of any governmental agency to take or acquire private property for a public use
 when constitutionally sufficient due process notice has not been provided to the land owner. By virtue
 of the Purveyor's actions as set forth above, an actual controversy has arisen and now exists between the
 Purveyors and Crystal concerning their respective rights, duties, and responsibilities.

6 62. Crystal desires a declaration of its rights with respect to the application or nonapplication
7 of Article I Section 7 and the 5<sup>th</sup> Amendment to the U.S. Constitution to the Purveyors' prescription
8 claims and asks the court to make a declaration of such rights, duties, and responsibilities. Such a
9 declaration is necessary and appropriate at this time in order that Crystal's property rights may be
10 protected and to ensure that the municipal Purveyors may proceed according to the California
11 Constitution. There are no administrative remedies available to Crystal.

A timely declaration by this court is urgent for the following reasons: by way of this action the Purveyors are seeking to adjudicate and enjoin the property rights of Crystal and thousands of other parties by avoiding the due process protections provided to these landowners under Article I Section 7, the 5<sup>th</sup> and 14<sup>th</sup> Amendments and Code of Civil Procedure sections 1230.010 through 1237.040. Absent a timely declaration by this court, injustice will result from the improper use and adjudication of Crystal's property rights should the foregoing constraints and statutory mandate be found applicable.

Crystal and or its predecessors in interest, have continually produced water from these wells without
 restriction and in quantities as were needed to perform its farming and irrigation operations from year
 to year.

4 67. Based on information and belief, it is alleged that Purveyors all pump groundwater from
5 the Antelope Valley and then sell it to other individuals and entities who reside within Kern County and
6 Los Angeles Counties.

7 An actual controversy has arisen and now exists between Crystal and the Purveyors 68. concerning their respective rights and duties in that the Purveyors contend that they have been pumping 8 water during a continuous 5 year period during which the common supply has been in a state of 9 overdraft; that this pumping has resulted in a reversal of the common law legal priority granted to 10 overlying land owners pursuant to the common law doctrine of prescription. Whereas, Crystal disputes 11 this contention and contends that by continuing to pump groundwater from the wells on its land, and by 12 continuing to thus meet all of the water needs to perform its farming operations, Crystal has preserved 13 and maintained its priority rights to the use of groundwater. 14

69. Crystal desires a judicial determination of each party's rights and duties, and a declaration
as to the status of each party's priority rights to the water in the Valley whether they be overlying,
appropriative or prescriptive.

18 70. A judicial declaration is necessary and appropriate at this time under the circumstances
19 in order that Crystal may ascertain its rights and duties relating to production of water from the Antelope
20 Valley.

Cross-Complainant refers to and incorporates, as though fully set forth herein, paragraphs 1 through 70, inclusive, of this Cross-Complaint. 72. AVEK and others provide the Antelope Valley with water imported from northern California. This imported water was and is available for purchase by the Purveyors.

| 1      | 73. Despite having knowledge that the pumping of groundwater in excess of the safe yield   |

| 4      | slow, stop or reduce their groundwater extractions from the supply and/or to supplement or replace their   |
| 5      | water needs from the available imported AVEK water.  |
| 6      | 74. The California Constitution, Article X, section 2 provides, in pertinent part, as follows:   |
| 7      | "It is hereby declared that because of the conditions prevailing in this State the general welfare requires that the water resources of the State be put to beneficial use to the fullest  |
| 8<br>9 | extent of which they are capable, and that the waste or unreasonable use or unreasonable<br>method of use of water be prevented, and that the conservation of such waters is to be<br>exercised with a view to the reasonable and beneficial use thereof in the interest of the  |

| 12     | unreasonable method of diversion of water"   |
| 13     | 75. An actual controversy has arisen and now exists between Crystal and each Purveyor  |
| 14     | concerning their respective rights and duties in that Crystal contends that the Purveyor's continued   |
| 15     | dependance on, and use of, the groundwater, their continued and increased extractions of groundwater   |
| 16     | from the common supply, with knowledge that the extractions exceed the safe yield, and their failure   |
| 17     | and/or refusal to take all of the available imported water and the method and use of groundwater taken,  |
| 18     | is unreasonable and constitutes a waste in violation of Article X, Section 2 of the California Constitution.   |
| 19     | The Purveyors dispute these contentions and contend that their dependance on groundwater, their  |
| 20     | continued and increasing extractions of groundwater from the Antelope Valley in excess of the safe yield   |
| 21     | and their failure and refusal to take all of the available imported water is reasonable and does not   |
| 22     | constitute waste of groundwater and/or available imported water under Article X, Section 2 of the  |
| 23     | California Constitution.   |
| 24     | 76. Crystal desires a declaration of its rights with respect to the constitutionality and  |
| 25     | application or nonapplication of Article X, Section 2 to the Purveyors' actions and asks the court to make   |
| 26     | a declaration of such rights, duties, and responsibilities, and to make a declaration as to the validity and   |

| 3  | under the law and cause no further damage to Crystal or property overlying the water supply. There are   |
| 4  | no administrative remedies available to Crystal.   |
| 5  | 77. A timely declaration by this court is urgent for the following reasons: by way of this   |
| 6  | action, the Purveyors are seeking to have the court ratify their method and choice of water usage and  |
| 7  | declare that they have the right to continue to extract groundwater from the Valley in excess of the safe  |
| 8  | yield and to continue to cause damage to the Valley itself as well as to the land overlying the water  |
| 9  | supply, absent a timely declaration by this court, an injustice will result from the improper validation of  |
| 10 | the Purveyors' water usage should this constitutional provision be found to apply to the Purveyors.  |
| 11 | 78. Crystal and numerous other private parties will suffer irreparable and lasting injury  |

| 16 | 1 through 78, inclusive, of this Cross-Complaint.  |
| 17 | 80. On January 8, 2006, the Purveyors filed a Cross-Complaint in this matter seeking to  |
| 18 | implement policy objectives which were stated in paragraph 1 as follows:   |
| 19 | "To promote the general public welfare in the Antelope Valley; protect the public water<br>supplier's rights to pump groundwater and provide water to the public; protect the  |
| 20 | Antelope Valley from a loss of the public's water supply; prevent degradation of the quality of the public groundwater supply; stop land subsidence; and avoid higher water  |

| 22 | 81. In order to implement these policy objectives, the Purveyors have brought a cause of   |
| 23 | action against all owners of property overlying the Antelope Valley seeking the imposition of a "physical  |
| 24 | solution" that would manage the groundwater supply by augmenting the water supply, manage the  |
| 25 | pumping and storage of water and impose monetary assessments on water extraction from the supply.  |

1 82. An actual controversy has arisen and now exists between Crystal and the Purveyors concerning their respective rights and duties in that Crystal contends that it is a violation of the 2 Constitutional doctrine of the separation of powers for this Court to implement the Purveyors' policy 3 objectives as they are by nature legislative actions, subject to the provisions of the California 4 Environmental Quality Act (hereinafter "CEQA"; Public Resources Code sections 21000-21177.) That 5 the requirements of CEQA are both procedural (requiring notice, disclosure and a review process) and 6 substantive (by requiring public agencies to take affirmative measures to avoid environmental harm and 7 8 to also protect the citizens and landowners of the State of California.)

9 83. The Purveyors contend that they may use the judicial system to circumvent CEQA and 10 impose by judicial fiat what should be a legislative policy. In doing so, they seek to avoid providing the 11 public with the required disclosures and evaluations, and thereby deny Crystal and the public their 12 procedural and substantive protections required by CEQA.

13 84. Crystal desires a judicial determination of the Purveyors' rights and duties, and a 14 declaration as to the application of Public Resources Code sections 21000-21177 to any proposed water 15 management plan sought to be implemented by judicial decree by the Purveyors. That the legislative 16 protections afforded to the public under CEQA cannot be ignored or subverted by resorting to the court 17 to implement the Purveyor's plan, and that such a request of this Court induces a violation of the 18 doctrine of the separation of powers.

19 85. A judicial declaration is necessary and appropriate at this time under the circumstances

| 14     | objectives as they are by nature legislative and executive actions that are within the power of the  |
| 15     | Purveyors to enact by following the statutory requirements set forth in Water Code sections 10700-   |
| 16     | 10795.20. These sections of the Water Code provide the procedural method by which the Purveyors  |

(Declaratory Relief Against All Cross-Defendants.)

9 93. Cross-Complainant refers to and incorporates, as though fully set forth herein, paragraphs
10 1 through 92, inclusive, of this Cross-Complaint.

11 94. Commencing in early 2000, each Purveyor has claimed that the Antelope Valley was in
12 a state of "overdraft" for more than five (5) years prior to October 1999.

Based on information and belief, it is alleged that immediately prior to, during and after 13 95. the same claimed five year period of "overdraft" claimed by the Purveyors, the Purveyors did approve 14 and have continued to approve the issuance of well permits to Crystal and others, have approved large 15 scale developments and have authorized others and have thus increased the demand for groundwater 16 pumped by the Purveyors from the Antelope Valley. In performing their ministerial and discretionary 17 functions, each Purveyor has asserted that the additional well permits, hook ups and added residential, 18 industrial and commercial developments, and the concomitant increased pumping of ground water 19 caused thereby, would not, and did not, have under CEQA or otherwise an adverse affect on the water 20 supply available from the Antelope Valley. 21

96. An actual controversy has arisen and now exists between Crystal and each Purveyor
concerning their respective rights and duties in that Crystal contends that the Purveyors are barred from
claiming that the Antelope Valley is in a state of "overdraft" during the time that they have authorized,
permitted and approved new and increased pumping from the supply pursuant to Evidence Code section

623. The Purveyors deny Crystal's contentions and assert that they may assert overdraft as an element 1 of their prescription claims. Section 623 provides as follows:

> "Whenever a party has, by his own statement or conduct, intentionally and deliberately led another to believe a particular thing true and to act upon such belief, he is not, in any litigation arising out of such statement or conduct, permitted to contradict it."

97. Crystal desires a judicial determination of its rights and duties, and a declaration as to the 6 application of the doctrine of equitable estoppel to the Purveyors' ability to claim that the Antelope 7 Valley was in a state of overdraft when the same Purveyors were issuing well permits, will serve letters 8 and adding new water customers and authorizing new large scale development projects under the 9 assertion that there was an available, adequate and appropriate water supply in the Antelope Valley to 10 sustain these permits and projects.

11 98. A judicial declaration is necessary and appropriate at this time under the circumstances 12 in order that Crystal may ascertain its rights and duties relating to its real property that overlies the 13 Antelope Valley.

## **Twelfth Cause of Action**

(Public and Private Nuisance Against All Cross-Defendants.)

99. Cross-Complainant refers to and incorporates, as though fully set forth herein, paragraphs 17 1 through 98, inclusive, of this Cross-Complaint.

18 Crystal is the owner of land overlying the Antelope Valley. Each of the Purveyors are 100. 19 users of water pumped from the Antelope Valley which underlies Crystal's land. 20

Initially, the Purveyors, and each of them, legally used, and maintained water wells that 101. 21 extracted water from the Antelope Valley for public distribution. Over time the increased urbanization 22 and the Purveyors continued and increasing extractions exceeded their legal boundaries, such that the 23 water extracted from the supply has exceeded the ability to naturally recharge the water supply. The 24 Purveyors have claimed to have knowledge that this continuous and increasing use caused a progressive 25 and chronic decline in long term water supply and the available natural supply is being and has been 26

chronically depleted. Based on the present trends, demand will continue to exceed supply which will
 cause damage to private rights and ownership of real property.

3

4

5

6

7

8

9

102. The aforementioned extractions of groundwater from the supply constitute a continuing progressive nuisance within the meaning of Section 3479 of the Civil Code, in that it the Purveyors have created a condition in the future supply that is injurious to Crystal's right, in the future, to freely use and exercise its overlying property rights to extract groundwater from the common supply in the customary manner. The Purveyors are attempting, through the combined efforts of their pumping groundwater and this present legal action, to take, and or alter, Crystal's overlying property rights to use and access the Antelope Valley supply.

10 103. In early 2000, the Purveyors asserted that the available groundwater supply was in 11 jeopardy and increased pumping would harm Antelope Valley Water Supply. Despite this assertion, the 12 Purveyors, and each of them, have continued to and have increased their pumping, despite the 13 knowledge of the damage caused by that pumping. The Purveyors have refused, and continue to refuse, 14 to stop or reduce their pumping despite the damage to the supply and to Crystal's property rights.

15 104. This nuisance affects, at the same time, a substantial number of persons in that, the 16 Purveyors claim that the continued pumping in excess of the supply's safe yield is, and will, eventually 17 cause a chronic decline in water levels and the available natural supply will be chronically depleted, that, 18 based on the present trends, demand will continue to exceed supply which will continue to cause a 19 reduction in the long term supply. Additionally, the continued pumping by the Purveyors under these 20 conditions will result in the unlawful obstruction of the overlying landowner's rights to use the water 21 supply in the customary manner.

The Purveyors, and each of them, have threatened to and will, unless restrained by this
court, continue to pump groundwater in increasing amounts, and each and every act has been, and will
be, without the consent, against the will, and in violation of the rights of Crystal.

25 106. As a proximate result of the nuisance created by the Purveyors, and each of them, Crystal
26 has been, and will be, damaged in a sum to be proven at trial.

27

28

Unless the Purveyors, and each of them, are restrained from increasing their pumping 107. 1 from the supply by order of this court, it will be necessary for plaintiff to commence many successive 2 actions against each Purveyor, and each of them, to secure a project by project injunction and/or 3 compensation for the continuing and repeated damages sustained, thus requiring a multiplicity of suits. 4 Should the Purveyors continue to increase their pumping without replenishing the 5 108. Valley's water supply, Crystal will suffer irreparable injury in that the usefulness and economic value 6 of Crystal's overlying property right will be substantially diminished and Crystal will be deprived of the 7 comfortable, reasonable and beneficial use and enjoyment of its property. 8 9 109. In maintaining this nuisance, the Purveyors, and each of them, are, and have been, acting with full knowledge of the consequences and damage being caused to Crystal, and their conduct is 10 willful, oppressive, malicious and designed to interfere with and take the Crystal's right to freely access 11 the water supply in its customary manner. Accordingly, each Purveyor has intentionally dirtied hands 12 and no right to involve equity in these actions. 13 14 **Thirteenth Cause of Action** (42 U.S.C. A 1983 Against All Cross-Defendants.) 15 Cross-Complainant refers to and incorporates, as though fully set forth herein, paragraphs 16 110. 1 through 109, inclusive, of this Cross-Complaint. 17 This cause of action is brought under 42 U.S.C. § 1983 to recover damages against the 18 111. Purveyors for violation of Crystal's right under the 5th and Fourteenth Amendments of the United States 19 Constitution through the Purveyors' taking of Crystal's private property for public use without paying 20just compensation and depriving Crystal of both substantive or procedural due process of law. 21 The Purveyors, and each of them are, and at all times mentioned in this cross-complaint 22 112. were, governmental entities organized an operating in Los Angeles and/or Kern County and in the State 23 of California. All are organized and existing under the laws of the State of California, with the capacity 24 to sue and be sued. 25 26 111 27CROSS-COMPLAINT OF CRYSTAL ORGANIC FARMS FOR EQUITABLE AND MONETARY RELIEF AGAINST CALIFORNIA WATER 28 SERVICE COMPANY, CITY OF LANCASTER. CITY OF PALMDALE, LITTLEROCK CREEK IRRIGATION DISTRICT, LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 40, PALMDALE WATER DISTRICT, ROSAMOND COMMUNITY SERVICES DISTRICT, PALM RANCH IRRIGATION DISTRICT AND QUARTZ HILL WATER DISTRICT

113. The Purveyors, and each of them, were, at all times mentioned in this cross-complaint, 2 acting under color of state law.

3 114. At an as yet unidentified historical point in time, the Purveyors began pumping water from the Antelope Valley as permissive appropriators. Over the course of time, it is believed and 4 therefore alleged, that the aggregate amount of water being extracted from the Valley began to exceed 5 the safe yield resulting in a condition called "overdraft." Crystal is informed and believes and based 6 thereon alleges, that the Purveyors had knowledge of the "overdraft" condition and nonetheless 7 continued pumping and increased their pumping with the specific intent to impair and take all superior 8 overlying property rights to extract groundwater, including that of Crystal. Each Purveyor continued to 9 pump and increased its pumping of groundwater believing that given the intervention of the committed 10 public use, that no injunction would issue to restrain and/or compel the Purveyor to reduce its 11 12 dependence upon groundwater. Each Purveyor contends that despite its status as a governmental entity, it can nonetheless take private property for a public use under a theory of prescription and without 13 compensation. Each Purveyor claims that presumed or constructive knowledge of the overdraft 14 condition alone was sufficient to commence the running of the statutory prescriptive period. Each 15 Purveyor did not undertake any affirmative action reasonably calculated and intended to provide notice 16 17 and inform any affected landowner, including Crystal, of its adverse and hostile claim. Each Purveyor contends that it has taken the private property rights of Crystal and others, and have committed them to 18 a public use, without following the Constitutional constraints imposed by Article 1, Section 19, of the 19 California Constitution, and the eminent domain law, Code of Civil Procedure Section 1230.010 et seq., 20 and specifically, the substantive and procedural protections contemplated by Code of Civil Procedure 21 Section 1245.230. The acts of the Purveyors were done under the color of state law with the intent of 22 depriving Crystal of its property rights without substantive and procedural due process of law and to 23 avoid payment of compensation to Crystal for the property rights taken, all in violation of the 5th and 24 14th Amendments to the United States Constitution. 25

1 115. Crystal is informed and believes and thereon alleges that it was subjected to a violation 2 of its right to due process of law prior to the taking of its property and its right to receive just 3 compensation when its property was taken for the public benefit. This violation was a direct result of 4 the knowing customs, practices, and policies of the Purveyors to continue to pump in excess of the 5 supply, to suppress the assertion of their adverse and hostile claim, and the resulting ever increasing 6 intervening public use and dependance, without acceding to Constitutional limits.

The customs, practices, and policies of the Purveyors to prescript or adversely possess
the property rights of property owners and/or to establish a nonenjoinable intervening use amounted to
deliberate indifference to the rights of persons, such as Crystal, who stand to lose their rights to extract
water from the Antelope Valley for use on their property through the actions of each Purveyor and all
of them.

12 117. As a direct and proximate result of the acts of the Purveyors, Crystal has suffered injury,
13 loss, and damage, including a cloud upon its title to its real property, a reduction in value, and the loss
14 of its right in the future to extract and use groundwater from the Valley.

14.Littlerock Creek Irrigation District is a public agency which provides water to customers2located within the geographic boundaries of the Basin and which extracts water from the Basin.

5. Los Angeles County Waterworks District 40 (hereinafter "District 40") is a public agency
governed by the Los Angeles County board of Supervisors operating under Division 16 of the California
Water Code. District 40 was established on November 4, 1993 to provide water service to the public
within the Antelope Valley.

7 6. Palmdale Water District (hereinafter "Palmdale") was formed as a public irrigation
8 district in 1918 and operates under Division 11 of the California Water Code and is producing water
9 from the Antelope Valley Water Supply and selling it to its customers.

Rosamond Community Services District (hereinafter "Rosamond") is a County Water
 District voted into being in 1966, and operating under Division 12 of the California Water Code to
 provide water for domestic, irrigation, and fire flow, collection and treatment of waste and storm water,
 maintenance of street lights, graffiti abatement and parks and recreation.

148.Palm Ranch Irrigation District is a public agency which provides water to customers15located within the geographic boundaries of the Basin and which extracts water from the Basin.

Quartz Hill Water District (hereinafter "Quartz Hill") is a county water district organized
 and operating under Division 12 of the California Water Code and is producing water from the Antelope
 Valley Water Supply and selling it to its customers.

Piñon Hills Community Services District is a community services district located in
 western San Bernardino County. Piñon Hills Community Services District is organized under the
 Community Services District Law (Government Code section 61000, et seq.). The San Bernardino
 County Local Agency Formation Commission confirmed the order of reorganization and issued the
 certificate of completion for Phelan in March of 2008. Phelan's official date of inception is on or about
 March 18, 2008.

Cross-Complainant LAPIS Land Company, LLC, (hereinafter "LAPIS") is a limited
liability company that owns and leases overlying land within the Antelope Valley. LAPIS owns and
operates water wells that draw water from beneath the land for use on the lands for irrigation. LAPIS
and its predecessors in interest, are currently, and have historically, pumped water from beneath the land
for farming.

9 13. Cross-Complainants are ignorant of the true names and capacities of cross-defendants
sued herein as ROES 1-200, inclusive, and therefore sue these cross-defendants by such fictitious names.
Cross-Complainants will amend this Cross-Complaint to allege their true names and capacities when
ascertained. Each reference in this Cross-Complaint to "Purveyors," "the Purveyors," or a specifically
named cross-defendant, refers also to all cross-defendants sued under fictitious names.

14 14. Cross-Complainants are informed and believe, and thereon allege, that Rosamond,
15 District 40, Palmdale and Quartz Hill (collectively "the Purveyors") began pumping appropriated surplus
16 water from the Antelope Valley to provide water for their municipal and industrial water customers. At
17 the onset of pumping by the Purveyors, the same was lawful and permissive and did not immediately
18 nor prospectively invade or impair any overlying right.

Over time, the urban areas within the Antelope Valley continued to expand and grow both 19 15. in land area and population, and thus, over time the Purveyors increased, and today, continue to increase 20their demand for water. Cross-Complainants are informed and believe, and thereon allege, that at some 21 as yet unidentified historical point, the aggregate extractions of groundwater from the Antelope Valley 22 began to exceed the safe yield of the Valley. Despite the potential for damage to the water supply and 23 the rights of owners of real property within the Valley, the Purveyors, with knowledge continued to 24 extract groundwater from the common supply, and increased and continue to increase their extractions 25 of groundwater over time. The Purveyors continued the act of pumping with the knowledge that the 26 27

 the rights of the property owners, including the rights in the land owned by Grimmway and LAPIS,
 which is overlying and within the Antelope Valley.

Cross-Complainants are informed and believe, and thereon allege, that the Purveyors 16. 4 pumped and continue to pump water in excess of the safe yield with the knowing intent and belief that 5 they could take by claim of prescription, without compensation, the water rights of Grimmway and 6 LAPIS, and all landowners overlying the Antelope Valley. Additionally, all Purveyors continued to 7 pump ever increasing quantities of groundwater, knowing that even if their prescriptive claims failed, 8 they could preserve the right to continue their pumping under a claim of an intervening public use. 9 Despite the knowing intent to take the overlying property landowners' rights, no Purveyor took any steps 10 calculated and intended to inform or otherwise notify any landowner of their adverse and hostile claim 11 or that their pumping of groundwater was an invasion of and a taking of the landowners' property rights. 12

13 17. During the material time that each Purveyor was pumping, none physically trespassed
14 upon nor invaded any overlying property. No Purveyor stopped, restricted, interfered with or physically
15 or by regulation reduced Grimmway and LAPIS, or any overlying landowner's right and ability to pump
16 groundwater from the Antelope Valley. No Purveyor ever took any affirmative action reasonably
17 calculated to inform or notify any overlying landowner that the Purveyor intended to take or were taking
18 by prescription the overlying water rights.

Between 1960 and 1980, the Antelope Valley East Kern Water Agency (hereinafter 18. 19 "AVEK") was created to import water from northern California to southern California. As part of its 20operations, AVEK, in addition to other water importers, have brought and now brings imported water 21 to the Antelope Valley. This imported water was at all material times available for purchase by the 22 Purveyors. Based upon information and belief, it is alleged that the Purveyors consciously chose to not 23 purchase all of the available higher priced imported water to meet their water needs and instead chose 24 to continue to pump and to increase their extractions of groundwater from the Antelope Valley, because, 25 despite the damage to the Valley, groundwater was cheaper than the imported water. 26

In late 2004, the Los Angeles County Board of Supervisors unanimously voted to 2 authorize District 40 to file and prosecute the present legal actions which seeks a judicial declaration that 3 District 40 has obtained, without compensation and without due process notice, the overlying 4 landowner's appurtenant water rights through the common law doctrine of prescription. Based on this 5 authorization, District 40 filed these actions.

6 20. Grimmway and LAPIS did not have actual knowledge that any Purveyor's pumping of
7 groundwater was adverse to or hostile to its present and/or future priority rights.

8 21. Based upon information and belief, no landowner had actual knowledge that any
9 Purveyor's pumping of groundwater was adverse to or hostile to its present and/or future priority rights.
10 22. In January 2006, the Purveyors identified herein jointly filed a Cross-Complaint in place
11 of the original Complaint seeking to obtain a judicial declaration that they had obtained the overlying
12 landowner's water rights, without compensation, within the Antelope Valley through the common law
13 doctrine of prescription.

In January 2007, the Purveyors identified herein jointly filed the present First Amended
Cross-Complaint in place of the Cross-Complaint and in place of the original Complaint seeking to
obtain a judicial declaration that they had obtained the overlying landowner's water rights, without
compensation, within the Antelope Valley through the common law doctrine of prescription.

18 24. None of the Purveyors have invoked the power of eminent domain nor paid any
19 compensation to Grimmway or LAPIS or any other overlying owner of land located within Antelope
20 Valley for the property rights they have allegedly and knowingly claimed to have taken.

In or about 1951, the Legislature of the State of California enacted Sections 55000 et seq. 26. 1 of the Water Code, known as the County Waterworks District Law, hereinafter referred to as the 2 "Waterworks Statutes." In 1953, the legislature added section 55370. This section, since its adoption has 3 been, and now is, in full force and effect. This statute provides as follows: 4 "A district may acquire property by purchase, gift, devise, exchange, descent, and 5 eminent domain. The title to all property which may have been acquired for a district shall be vested in the district." 6 District 40 contends that section 55370 of the Water Code does not apply to, or limit in 7 27. any manner, its acquisition of any overlying landowner's water rights within the Antelope Valley and 8 that, despite its status as a public entity, Article 1, Section 19 of the California Constitution, and the 5th 9 Amendment to the Federal Constitution, it is nonetheless empowered to acquire private property for 10 public use through the common law doctrine of prescription, without due process and without 11 compensation. 12 Grimmway and LAPIS contend that the statute is constitutional, and when conjoined with 28.13 the California state and Federal Constitutions, limits the method, manner and mode by which District 14 40 may acquire private property for a public use and the rights appurtenant thereto. By virtue of the 15 actions of District 40 and the Board of Supervisors as set forth above, an actual controversy has arisen 16 and now exists between District 40 and Grimmway and LAPIS concerning their respective rights, duties, 17 and responsibilities under that statute and both Constitutions. 18Grimmway and LAPIS desire a declaration of its rights with respect to the 29. 19 constitutionality and application or nonapplication of the statute and asks the court to make a declaration 20of such rights, duties, and responsibilities, and to make a declaration as to the validity and 21 constitutionality of the statute. Grimmway and LAPIS seek a declaration that the effort of the district to 22 deprioritize Grimmway and LAPIS's overlying right is, without compensation, ultra vires and 23 unconstitutional. Such a declaration is necessary and appropriate at this time in order that Grimmway 24 and LAPIS's property rights be protected and to ensure that District 40 proceeds according to the law 25 HI 26 27 CROSS-COMPLAINT OF GRIMMWAY ENTERPRISES, INC. 1 35. Grimmway and LAPIS contend that the statute is constitutional, and when conjoined with 2 the California state and Federal Constitutions, limits the method, manner and mode by which Palmdale 3 may acquire private property for a public use and the rights appurtenant thereto by declaring that the only 4 legal right of the district to take possession of land without consent of the owners is under its power of 5 eminent domain. By virtue of Palmdale's actions as set forth above, an actual controversy has arisen and 6 now exists between Palmdale and Grimmway and LAPIS concerning their respective rights, duties, and 7 responsibilities under that statute and both Constitutions.

Grimmway and LAPIS desire a declaration of its rights with respect to the 8 36. constitutionality and application or nonapplication of the statute and asks the court to make a declaration 9 of such rights, duties, and responsibilities, and to make a declaration as to the validity and 10 constitutionality of the statute. Grimmway and LAPIS seek a declaration that the effort of the district 11 to deprioritize Grimmway and LAPIS's overlying right is, without compensation, ultra vires and 12 unconstitutional. Such a declaration is necessary and appropriate at this time in order that Grimmway 13 and LAPIS's property rights be protected and to ensure that Palmdale proceeds according to the law and 14 Constitution of the state and the Federal Constitution. There are no administrative remedies available 15 to Grimmway and LAPIS. 16

A timely declaration by this court is urgent for the following reasons: by way of this
action Palmdale is seeking to adjudicate, enjoin and take the property rights of Grimmway and LAPIS
and thousands of other parties who own property overlying the Antelope Valley, absent a timely
declaration by this court, an injustice will result from the improper awarding of property rights to
Palmdale should this statute be later found to limit the method by which Palmdale may forcibly acquire
property rights.

lasting injury unless declaratory relief is granted.

| 12       | 1 through 59, inclusive, of this Cross-Complaint.  |
| 13       | 61. Article I Section 7 of the California Constitution provides in pertinent part as follows:  |
| 14       | "A person may not be deprived of life, liberty, or property without due process of law or denied equal protection of the laws;"  |
| 15       |  |

| 19       | 62. The Purveyors contend that, even though they are political subdivisions who are uniquely   |
| 20       | invested with the power of eminent domain, they are allowed to surreptitiously take private property for   |
| 21       | public use by prescription or adverse possession without providing substantive or procedural due process   |

| 23<br>24 | "overdraft," and that presumed or constructive notice is sufficient.   |
|          | 63. Grimmway and LAPIS contend that the Article I, Section 7, of the State Constitution, and   |

governmental entities must provide substantive and procedural due process of law when taking private 1 property for a public use. Grimmway and LAPIS contend that the prescriptive period cannot commence 2 until the governmental entity takes affirmative action designed and intended to give notice and inform 3 the overlying landowners of the governmental entity's adverse and hostile claim. Grimmway and LAPIS 4 further contend that this limitation forecloses the ability of any governmental agency to take or acquire 5 private property for a public use when constitutionally sufficient due process notice has not been 6 provided to the land owner. By virtue of the Purveyor's actions as set forth above, an actual controversy 7 has arisen and now exists between the Purveyors and Grimmway and LAPIS concerning their respective 8 9 rights, duties, and responsibilities.

64. Grimmway and LAPIS desire a declaration of its rights with respect to the application or nonapplication of Article I Section 7 and the 5<sup>th</sup> Amendment to the U.S. Constitution to the Purveyors' prescription claims and asks the court to make a declaration of such rights, duties, and responsibilities. Such a declaration is necessary and appropriate at this time in order that Grimmway and LAPIS's property rights may be protected and to ensure that the municipal Purveyors may proceed according to the California Constitution. There are no administrative remedies available to Grimmway and LAPIS.

A timely declaration by this court is urgent for the following reasons: by way of this
action the Purveyors are seeking to adjudicate and enjoin the property rights of Grimmway and LAPIS
and thousands of other parties by avoiding the due process protections provided to these landowners
under Article I Section 7, the 5<sup>th</sup> and 14<sup>th</sup> Amendments and Code of Civil Procedure sections 1230.010
through 1237.040. Absent a timely declaration by this court, injustice will result from the improper use
and adjudication of Grimmway and LAPIS's property rights should the foregoing constraints and
statutory mandate be found applicable.

| 3  | 67. Cross-Complainants refer to and incorporate, as though fully set forth herein, paragraphs  |
| 4  | 1 through 66, inclusive, of this Cross-Complaint.  |
| 5  | 68. Grimmway and LAPIS are the owners and/or lessees of real property located within the   |
| 6  | Antelope Valley. Located on Grimmway and LAPIS's property are water wells which produce water  |
| 7  | from the groundwater supply. Grimmway and LAPIS and or its predecessors in interest, have  |
| 8  | continually produced water from these wells without restriction and in quantities as were needed to  |
| 9  | perform its farming and irrigation operations from year to year.   |
| 10 | 69. Based on information and belief, it is alleged that Purveyors all pump groundwater from  |
| 11 | the Antelope Valley and then sell it to other individuals and entities who reside within Kern County and   |
| 12 | Los Angeles Counties.  |
| 13 | 70. An actual controversy has arisen and now exists between Grimmway and LAPIS and the   |
| 14 | Purveyors concerning their respective rights and duties in that the Purveyors contend that they have been  |
| 15 | pumping water during a continuous 5 year period during which the common supply has been in a state   |
| 16 | of overdraft; that this pumping has resulted in a reversal of the common law legal priority granted to   |
| 17 | overlying land owners pursuant to the common law doctrine of prescription. Whereas, Grimmway and   |
| 18 | LAPIS dispute this contention and contends that by continuing to pump groundwater from the wells on  |
| 19 | its land, and by continuing to thus meet all of the water needs to perform its farming operations,   |
| 20 | Grimmway and LAPIS have preserved and maintained its priority rights to the use of groundwater.  |
| 21 | 71. Grimmway and LAPIS desire a judicial determination of each party's rights and duties,  |
| 22 | and a declaration as to the status of each party's priority rights to the water in the Valley whether they   |
| 23 | be overlying, appropriative or prescriptive.   |

| 5  | 74. AVEK and others provide the Antelope Valley with water imported from northern  |
| 6  | California. This imported water was and is available for purchase by the Purveyors.  |
| 7  | 75. Despite having knowledge that the pumping of groundwater in excess of the safe yield   |
| 8  | caused damage, and despite the knowledge and belief that continued pumping would damage the rights   |
| 9  | of the landowners whose property overlies the water supply, the Purveyors have failed and refused to   |
| 10 | slow, stop or reduce their groundwater extractions from the supply and/or to supplement or replace their   |
| 11 | water needs from the available imported AVEK water.  |
| 12 | 76. The California Constitution, Article X, section 2 provides, in pertinent part, as follows:   |
| 13 | "It is hereby declared that because of the conditions prevailing in this State the general welfare requires that the water resources of the State be put to beneficial use to the fullest  |
| 14 | extent of which they are capable, and that the waste or unreasonable use or unreasonable<br>method of use of water be prevented, and that the conservation of such waters is to be   |

| 22 | extractions of groundwater from the common supply, with knowledge that the extractions exceed the  |
| 23 | safe yield, and their failure and/or refusal to take all of the available imported water and the method and  |
| 24 | use of groundwater taken, is unreasonable and constitutes a waste in violation of Article X, Section 2   |
| 25 | of the California Constitution. The Purveyors dispute these contentions and contend that their   |

Grimmway and LAPIS desire a declaration of its rights with respect to the 78. constitutionality and application or nonapplication of Article X, Section 2 to the Purveyors' actions and 5 asks the court to make a declaration of such rights, duties, and responsibilities, and to make a declaration 6 as to the validity and constitutionality of the Article X, Section 2. A timely declaration by this court is urgent for the following reasons: by way of this 79. 12 action, the Purveyors are seeking to have the court ratify their method and choice of water usage and 13 declare that they have the right to continue to extract groundwater from the Valley in excess of the safe 14 yield and to continue to cause damage to the Valley itself as well as to the land overlying the water 15 supply, absent a timely declaration by this court, an injustice will result from the improper validation of 16 the Purveyors' water usage should this constitutional provision be found to apply to the Purveyors. 17 Grimmway and LAPIS and numerous other private parties will suffer irreparable and 18 80.

On January 8, 2006, the Purveyors filed a Cross-Complaint in this matter seeking to 1 82. implement policy objectives which were stated in paragraph 1 as follows: 2 "To promote the general public welfare in the Antelope Valley; protect the public water 3 supplier's rights to pump groundwater and provide water to the public; protect the Antelope Valley from a loss of the public's water supply; prevent degradation of the 4 quality of the public groundwater supply; stop land subsidence; and avoid higher water costs to the public." 5 In order to implement these policy objectives, the Purveyors have brought a cause of 6 83. action against all owners of property overlying the Antelope Valley seeking the imposition of a "physical 7 solution" that would manage the groundwater supply by augmenting the water supply, manage the 8 pumping and storage of water and impose monetary assessments on water extraction from the supply. 9 An actual controversy has arisen and now exists between Grimmway and LAPIS and the 84. 10 Purveyors concerning their respective rights and duties in that Grimmway and LAPIS contend that it is 11 a violation of the Constitutional doctrine of the separation of powers for this Court to implement the 12 Purveyors' policy objectives as they are by nature legislative actions, subject to the provisions of the 13 California Environmental Quality Act (hereinafter "CEQA"; Public Resources Code sections 21000-14 21177.) That the requirements of CEQA are both procedural (requiring notice, disclosure and a review 15 process) and substantive (by requiring public agencies to take affirmative measures to avoid 16 environmental harm and to also protect the citizens and landowners of the State of California.) 17 The Purveyors contend that they may use the judicial system to circumvent CEQA and 85. 18 impose by judicial fiat what should be a legislative policy. In doing so, they seek to avoid providing the 19 public with the required disclosures and evaluations, and thereby deny Grimmway and LAPIS and the 20public their procedural and substantive protections required by CEQA. 21 Grimmway and LAPIS desire a judicial determination of the Purveyors' rights and duties, 86. 22 and a declaration as to the application of Public Resources Code sections 21000-21177 to any proposed 23 water management plan sought to be implemented by judicial decree by the Purveyors. In doing so, they seek to avoid providing the 5 public with the required notice, hearing and disclosures and deny them their procedural and substantive 6 protections provided by the Constitution and the Water Code sections 10700-10795.20..

93. Grimmway and LAPIS desire a judicial determination of the Purveyors' rights and duties, and a declaration as to the application and propriety of Water Code sections 10700-10795.20 to the proposed water management project sought to be implemented by the Purveyors. That the legislative protections afforded to the public under the Water Code may not be ignored or subverted by the filing of a legal action by a public agency, and that such action requests this court to violate the doctrine of separation of powers.

Grimmway and LAPIS are the owners of land overlying the Antelope Valley. Each of
 the Purveyors are users of water pumped from the Antelope Valley which underlies Grimmway and
 LAPIS's land.

103. Initially, the Purveyors, and each of them, legally used, and maintained water wells that 4 extracted water from the Antelope Valley for public distribution. Over time the increased urbanization 5 and the Purveyors continued and increasing extractions exceeded their legal boundaries, such that the 6 water extracted from the supply has exceeded the ability to naturally recharge the water supply. The 7 Purveyors have claimed to have knowledge that this continuous and increasing use caused a progressive 8 and chronic decline in long term water supply and the available natural supply is being and has been 9 chronically depleted. Based on the present trends, demand will continue to exceed supply which will 10 cause damage to private rights and ownership of real property. 11

12 104. The aforementioned extractions of groundwater from the supply constitute a continuing 13 progressive nuisance within the meaning of Section 3479 of the Civil Code, in that it the Purveyors have 14 created a condition in the future supply that is injurious to Grimmway and LAPIS's right, in the future, 15 to freely use and exercise its overlying property rights to extract groundwater from the common supply 16 in the customary manner. The Purveyors are attempting, through the combined efforts of their pumping 17 groundwater and this present legal action, to take, and or alter, Grimmway and LAPIS's overlying 18 property rights to use and access the Antelope Valley supply.

19 105. In early 2000, the Purveyors asserted that the available groundwater supply was in
20 jeopardy and increased pumping would harm Antelope Valley Water Supply. Despite this assertion, the
21 Purveyors, and each of them, have continued to and have increased their pumping, despite the
22 knowledge of the damage caused by that pumping. The Purveyors have refused, and continue to refuse,
23 to stop or reduce their pumping despite the damage to the supply and to Grimmway and LAPIS's
24 property rights.

cause a chronic decline in water levels and the available natural supply will be chronically depleted, that,
 based on the present trends, demand will continue to exceed supply which will continue to cause a
 reduction in the long term supply. Additionally, the continued pumping by the Purveyors under these
 conditions will result in the unlawful obstruction of the overlying landowner's rights to use the water
 supply in the customary manner.

6

8

107. The Purveyors, and each of them, have threatened to and will, unless restrained by this court, continue to pump groundwater in increasing amounts, and each and every act has been, and will be, without the consent, against the will, and in violation of the rights of Grimmway and LAPIS.

9 108. As a proximate result of the nuisance created by the Purveyors, and each of them,
10 Grimmway and LAPIS have been, and will be, damaged in a sum to be proven at trial.

Unless the Purveyors, and each of them, are restrained from increasing their pumping 109. 11 from the supply by order of this court, it will be necessary for plaintiff to commence many successive 12 actions against each Purveyor, and each of them, to secure a project by project injunction and/or 13 compensation for the continuing and repeated damages sustained, thus requiring a multiplicity of suits. 14 Should the Purveyors continue to increase their pumping without replenishing the 15 110. Valley's water supply, Grimmway and LAPIS will suffer irreparable injury in that the usefulness and 16 economic value of Grimmway and LAPIS's overlying property right will be substantially diminished 17 and Grimmway and LAPIS will be deprived of the comfortable, reasonable and beneficial use and 18 enjoyment of their property. 19

111. In maintaining this nuisance, the Purveyors, and each of them, are, and have been, acting
with full knowledge of the consequences and damage being caused to Grimmway and LAPIS, and their
conduct is willful, oppressive, malicious and designed to interfere with and take the Grimmway and
LAPIS's right to freely access the water supply in its customary manner. Accordingly, each Purveyor
has intentionally dirtied hands and no right to involve equity in these actions.

| 1  | Thirteenth Cause of Action   |
|----|--|
| 2  | (42 U.S.C. A 1983 Against All Cross-Defendants.)   |
| 3  | 112. Cross-Complainants refer to and incorporate, as though fully set forth herein, paragraphs   |
| 4  | 1 through 111, inclusive, of this Cross-Complaint.   |
| 5  | 113. This cause of action is brought under 42 U.S.C. § 1983 to recover damages against the   |
| 6  | Purveyors for violation of Grimmway and LAPIS's rights under the 5th and Fourteenth Amendments   |
| 7  | of the United States Constitution through the Purveyors' taking of Grimmway and LAPIS's private  |
| 8  | property for public use without paying just compensation and depriving Grimmway and LAPIS of both  |
| 9  | substantive or procedural due process of law.  |
| 10 | 114. The Purveyors, and each of them are, and at all times mentioned in this cross-complaint   |
| 11 | were, governmental entities organized an operating in Los Angeles and/or Kern County and in the State  |
| 12 | of California. All are organized and existing under the laws of the State of California, with the capacity   |
| 13 | to sue and be sued.  |
| 14 | 115. The Purveyors, and each of them, were, at all times mentioned in this cross-complaint,  |
| 15 | acting under color of state law.   |
| 16 | 116. At an as yet unidentified historical point in time, the Purveyors began pumping water   |
| 17 | from the Antelope Valley as permissive appropriators. Over the course of time, it is believed and  |
| 18 | therefore alleged, that the aggregate amount of water being extracted from the Valley began to exceed  |
| 19 | the safe yield resulting in a condition called "overdraft." Grimmway and LAPIS are informed and  |
| 20 | believe and based thereon allege, that the Purveyors had knowledge of the "overdraft" condition and  |
| 21 | nonetheless continued pumping and increased their pumping with the specific intent to impair and take  |
| 22 | all superior overlying property rights to extract groundwater, including that of Grimmway and LAPIS.   |
| 23 | Each Purveyor continued to pump and increased its pumping of groundwater believing that given the  |
| 24 | intervention of the committed public use, that no injunction would issue to restrain and/or compel the   |
| 25 | Purveyor to reduce its dependence upon groundwater. Each Purveyor contends that despite its status as  |
| 26 | a governmental entity, it can nonetheless take private property for a public use under a theory of   |

prescription and without compensation. Each Purveyor claims that presumed or constructive knowledge 1 of the overdraft condition alone was sufficient to commence the running of the statutory prescriptive 2 period. Each Purveyor did not undertake any affirmative action reasonably calculated and intended to 3 provide notice and inform any affected landowner, including Grimmway and LAPIS, of its adverse and 4 hostile claim. Each Purveyor contends that it has taken the private property rights of Grimmway and 5 LAPIS and others, and have committed them to a public use, without following the Constitutional 6 constraints imposed by Article 1, Section 19, of the California Constitution, and the eminent domain 7 law, Code of Civil Procedure Section 1230.010 et seq., and specifically, the substantive and procedural 8 protections contemplated by Code of Civil Procedure Section 1245.230. The acts of the Purveyors were 9 done under the color of state law with the intent of depriving Grimmway and LAPIS of their property 10 rights without substantive and procedural due process of law and to avoid payment of compensation to 11 Grimmway and LAPIS for the property rights taken, all in violation of the 5th and 14th Amendments 12 to the United States Constitution. 13

14 117. Grimmway and LAPIS are informed and believe and thereon allege that they were 15 subjected to a violation of their right to due process of law prior to the taking of their property and their 16 right to receive just compensation when their property was taken for the public benefit. This violation 17 was a direct result of the knowing customs, practices, and policies of the Purveyors to continue to pump 18 in excess of the supply, to suppress the assertion of their adverse and hostile claim, and the resulting ever 19 increasing intervening public use and dependance, without acceding to Constitutional limits.

118. The customs, practices, and policies of the Purveyors to prescript or adversely possess
the property rights of property owners and/or to establish a nonenjoinable intervening use amounted to
deliberate indifference to the rights of persons, such as Grimmway and LAPIS, who stand to lose their
rights to extract water from the Antelope Valley for use on their property through the actions of each
Purveyor and all of them.
