Subject to:

Any covenants, conditions, restrictions, res-
ervations, rights, rights of way and easements
of record, or in deed to file.

Consisting of approximately 86.56 acres.

PARCEL #1A

The northeast quarter of the northwest quarter of Section 11, Township 3 North, Range 11 West and the south half of the southwest quarter of the northwest quarter of Section 11, Township 3 North, Range 11 West, San Bernardino meridian, in the County of Los Angeles and State of California, according to the official plat of the survey of said land approved by the Surveyor General March 19, 1856.

EXCEPT the interest in that portion of the west half of Section 11, Township 3 North, Range 11 West, San Bernardino Meridian, within a strip of land 60 feet wide, lying 30 feet each side of the following described center line:

Beginning at the northwest corner of said Section 11; thence South $25^{\circ} 15' 35''$ East 2725.85 feet to the beginning of a curve concave to the northeast, and having a radius of 300 feet; thence southeasterly along said curve 340.73 feet to the end of same; thence North $69^{\circ} 39' 55''$ East along the north line of the southwest quarter of said Section 11 to the northeast corner of the southwest quarter of said Section 11, the above curve is tangent to the straight lines which it joins, to be known as Palmdale Llano Road, which was conveyed to the County of Los Angeles for public road and highway purposes, by deed recorded in book 6983 page 30 of Deeds.

PARCEL #2 B

The northwest quarter of the northwest quarter, and the north half of the southwest quarter of the northwest quarter of Section 11, Township 3 North, Range 11 West, San Bernardino Meridian, according to the official plan of the survey of said land on file in the office of the Bureau of Land Management.

EXCEPT the interest in that portion of the west half of Section 11, Township 3 North, Range 11 West, San Bernardino Meridian, within a strip of land 60 feet wide, lying 30 feet each side of the following described center line:

Beginning at the northwest corner of said Section 11; thence South $25^{\circ} 15' 35''$ East 2725.85 feet to the beginning of a curve concave to the northeast, and having a radius of 300 feet; thence southeasterly along said curve 340.73 feet to the end of same; thence North $69^{\circ} 39' 55''$ East along the north line of the southwest quarter of said Section 11 to the northeast corner of the southwest quarter of said Section 11. The above curve is tangent to the straight lines which it joins. To be known as Palmdale Llano Road; which was conveyed to the county of Los Angeles for public road and highway purposes, by deed recorded in book 6983 page 30 of Deeds.

1. The right to extend any pipes, culverts, bulkheads, passes or wing walls that may be necessary in the proper construction and drainage of said Palmdale Llano Road, and to extend the slopes of cut or fill of the road beyond the limits of said roadway whenever it may be necessary to do so, provided, however, that the road proper does not, at any place, extend beyond the limits of the right of way hereby granted. The grantor grants to said County all rights to supervise or control the planting, maintaining, trimming or removing of any trees, shrubs, flowers, grass, or other plants within said roadway, and waives all right to the maintaining of any improvements or obstructions within said roadway, and in the acceptance of this deed by the County nothing herein contained shall be construed as an acceptance of any improvements made in or upon said roadway, as granted to the County of Los Angeles, in deed recorded in book 6883 page 30 of Deeds.

2. An easement over the northerly 25 feet of said land for public road and highway purposes, as granted to County of Los Angeles, in deed recorded in book 1446 page 84 of Official Records.

3. An easement over the southerly 10 feet of the northerly 44 feet of the easterly 40 feet of the northwest quarter of the northwest quarter of Section 11, for pole lines and incidental purposes, as granted to Southern California Edison Company, a corporation, by deed recorded June 27, 1931 in book 38628 page 17 of Official Records.

4. An easement over the southerly 10 feet of the northerly 44 feet of the northwest quarter of the northwest quarter of Section 11, for poles and incidental purposes, as granted to Southern California Edison Company, a corporation, by deed recorded October 19, 1931 as Instrument No. 2100.

**Littlerock Sand and Gravel – Granite Construction Lease
Proposed Lease Amendment White Sheet**

Background:

Granite Construction currently leases and mines approximately 236 acres from Littlerock Sand and Gravel. The lease, including extensions, will expire April 31 2021. Granite currently pays royalty to Littlerock Sand and Gravel for any sold material that leaves the facility, including product generated from import materials. Granite Construction would like to continue their construction materials operations on site after the available material for mining has been depleted without royalty payments on the imported material products.

Proposed Amendment Terms:

- Add an additional 10 year lease extension to the current term, extending term of lease to April 31, 2031.
- Modify rental compensation to allow for replacement of royalty payments with flat lease rate when minable material in lease area has been mined out. Flat lease rate will grow at CPI.
- Allow for a "royalty bank," which provides for royalty payments on material under rock plant. Granite Construction will continue to pay royalty on import material until such time as import royalty "pays off" royalty due for sellable material under Granite Construction's rock plant. When "royalty bank" is depleted, flat lease rate will take affect. Granite Construction estimates sellable material under their plant to 1 Million tons.
- Proposed lease rate would be \$160,000 per year, paid in monthly payments, and would grow at CPI from date of signing the amendment. Proposed lease rate was calculated as follows: 236 acres X \$4,000/acre X 1/6 lease ratio, rounded up to \$160,000.
- All other terms of the lease would remain in effect as outlined in the current lease document.

Hi Ann,

Here's some clarification. I believe there are three wells on site, but we only pump two. Per our consumption calculations we believe we use a max production of 437 acre feet per year. This number obviously fluctuates based upon market demand which directs our production volumes.

Cheers,

Bill Taylor

Year round pumping.

Granite pumps the water from the wells either directly into the rock processing plant or into a fresh water basin, which has pumps leading to the rock plant. In the first scenario, the water is conveyed through pipes which have misting spray bars used over the screening decks which act to wash the fine dust materials off of the rock. The water is also conveyed by pipes into a coarse material washer and/or a sand screw, which are large containers where the rock and sand are further washed to meet the various specifications for our industry. This water is then returned to a silt pond which ultimately allows the solids to settle and the water percolates back into the ground. In addition to these uses, Granite is also required by the Air Quality District to suppress dust at the plant by means of water sprays at material transfer points. So there are separate pipes and sprays all over the plant to meet this requirement. Granite also pumps the water to a large water storage tank which supplies the on-site water trucks which spray the roads for further dust control.

In the second scenario, water is pumped into a fresh water pond which has secondary pumping to the components listed above and the process is the same. The only difference is that the fresh water pond allows us to recycle a portion of the water, thus using less water than if we only had the direct connection.

The water used in the production of ready mixed concrete is required, by specification, to be potable. Granite does have a connection to Little Rock Irrigation District for some of its production water needs as well as for the restrooms.

As to the question of using aqueduct water, I don't know what level of treatment this water has received but for rock production it would be fine.

Littlerock Sand and Gravel – Granite Construction Lease Proposed Lease Amendment White Sheet

Background:

Granite Construction currently leases and mines approximately 236 acres from Littlerock Sand and Gravel. The lease, including extensions, will expire April 31 2021. Granite currently pays royalty to Littlerock Sand and Gravel for any sold material that leaves the facility, including product generated from import materials. Granite Construction would like to continue their construction materials operations on site after the available material for mining has been depleted without royalty payments on the imported material products.

Proposed Amendment Terms:

- Add an additional 10 year lease extension to the current term, extending term of lease to April 31, 2031.
- Modify rental compensation to allow for replacement of royalty payments with flat lease rate when minable material in lease area has been mined out. Flat lease rate will grow at CPI.
- Allow for a "royalty bank," which provides for royalty payments on material under rock plant. Granite Construction will continue to pay royalty on import material until such time as import royalty "pays off" royalty due for sellable material under Granite Construction's rock plant. When "royalty bank" is depleted, flat lease rate will take affect. Granite Construction estimates sellable material under their plant to 1 Million tons.
- Proposed lease rate would be \$160,000 per year, paid in monthly payments, and would grow at CPI from date of signing the amendment. Proposed lease rate was calculated as follows: 236 acres X \$4,000/acre X 1/6 lease ratio, rounded up to \$160,000.
- All other terms of the lease would remain in effect as outlined in the current lease document.

PROOF OF SERVICE

Antelope Valley Groundwater Cases
Santa Clara County Case No. 1-05-CV-049053
Judicial Council Coordination ("JCCP") No. 4408
California Court of Appeal, Fourth District, Division Two, Case No. E065512

STATE OF CALIFORNIA,

COUNTY OF ORANGE

At the time of service, I was over 18 years of age and not a party to this action. I am employed in the County of Orange, State of California. My business address is Musick Peeler & Garrett LLP, 650 Town Center Drive, Suite 1200, Costa Mesa, CA 92626-1925.

On November 17, 2017, I served the foregoing document described as: **PRODUCTION OF DOCUMENTS (LRSG 00001-LRSG 00015) PURSUANT TO GRANITE CONSTRUCTION CO.'S REQUESTS FOR PRODUCTION OF DOCUMENTS, SET ONE** on the interested parties in this action by posting the document listed above to the <http://www.avwatermaster.org> website in regard to the Antelope Valley Groundwater Adjudication matter, pursuant to the Electronic Filing and Service Standing Order of Judge Komar and through the OneLegal website (www.onelegal.com).

The file transmission was reported as complete to all parties appearing on the <http://www.avwatermaster.org> electronic service list and (www.onelegal.com) for the Antelope Valley Groundwater Cases, Case No. 2005-1-CV-049053; JCCP 4408.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on November 17, 2017, at Costa Mesa, California.

/s/ Judy Jacobs
